 This book is unique. It
 gathers texts which give
 the best presentation of
 the principles and key
 concepts of the Theory of
 Didactical Situations that

Guy Brousseau developed
 in the period from 1970 to
 1990. These texts provide
 a comprehensive
 presentation of the
 Theory. In order to
 facilitate the reading of
 certain points footnotes
 have been added, as well
 as preludes and interludes
 to place in context the
 chosen texts and clarify
 the construction of the
 book.
