La bonne
qualité des
données est
aujourd'hui la
clé de voûte
de toute
organisation.
La gestion et
l'amélioration
de cette
qualité sont
des tâches
coûteuses et
difficiles, mais
néanmoins
incontournabl

es. Cet ouvrage propose une étude des différents outils et démarches qui assistent les spécialistes de la qualité et de la gouvernance des données. À travers les expériences de la communauté francophone animée par l'association ExQI (Excellence Qualité, Information), il présente, avec pédagogie et pragmatisme, un panorama des concepts-clés de la gestion de la qualité des

données et leurs déclinaisons dans les entreprises (Business Intelligence, Data Quality Management, Key Performance Indicator, Model Driven Engineering, Master Data Management, etc.). Des solutions théoriques et techniques performantes sont détaillées et de nombreux retours d'expérience permettent d'illustrer les bonnes pratiques à adopter. Mêlant

contributions industrielles et académiques, cet ouvrage est un outil de référence en langue française sur la qualité et la gouvernance des données en entreprise. **Sessional Papers** BRILL
This book constitutes the thoroughly refereed proceedings of the international workshops associated with the 34th International Conference on Advanced Information Systems Engineering, CAiSE 2022, which was

held in Leuven, Belgium, during June 6-10, 2022. The workshops included in this volume are: · BC4IS: Second International Workshop on Blockchain for Information Systems · ISESL: Second International Workshop on Information Systems Engineering for Smarter Life · KET4DF: 4th International Workshop on Key Enabling Technology for Digital Factories They reflect a broad range of topics and trends ranging from blockchain technologies via digital factories, ethics, and ontologies, to the agile methods for business and information systems. The 11 full papers and 1 short paper presented in this book were carefully reviewed and selected from 23 submissions. The Architecture of Paris Lavoisier This volume includes the editorial “The absconded subject of Pop,” by Thomas Crow; “Enlivening the soul in Chinese tombs,” by Wu Hung; “On the ‘true body’ of Huineng,” by Michele Matteini; “Apparition painting,” by Yukio Lippit; “Immanence out of sight,” by Joyce Cheng; “Absconding in plain sight,” by Roberta Bonetti; “Ancient Maya sculptures of Tikal, seen and unseen,” by Megan E. O’Neil; “Style and substance, or

why the Cacaxtla paintings were buried," by Claudia Brittenham; "The Parthenon frieze," by Clemente Marconi; "Roma sotterranea and the biogenesis of New Jerusalem," by Irina Oryshkevich; "Out of sight, yet still in place," by Minou Schraven; "Behind closed doors," by Melissa R. Katz; "Moving eyes," by Bissera V. Pentcheva; "'A secret kind of	charm not to be expressed or discerned,'" by Rebecca Zorach; "Ivory towers," by Richard Taws; "Boxed in," by Miranda Lash; "A concrete experience of nothing," by William S. Smith; "Believing in art," by Irene V. Small; "Repositories of the unconditional, " by Gabriele Guercio; "From micro/macroc osm to the aesthetics of ruins and waste- bodies," by Jeanette Zwingenberge r; "Are	shadows transparent?" by Roberto Casati; "Invisibility of the digital," by Boris Groys; "Des formes et des catégories," by Remo Guidieri; and "Further comments on 'Absconding,'" by Francesco Pellizzi. <i>List of Foreign Educational Institutions Approved Under Public Law 346, 78th Congress, as Amended (the GI Bill of Rights).</i> Springer Nature th The Who's Who in Fluorescence
--	---	---

2009 is the 7 volume of the Who's who series. The previous six volumes (2003 - 2008) have been very well received by the fluorescence community, with 1000's of copies being distributed around the world, through conferences and workshops, as well as through internet book sites. In addition, the Institute of Fluorescence (<http://theinstituteoffluorescence.com/>) mailed 100's

of copies of the 2008 volume to contributors around the world. This new 2009 volume features some 419 entries from no fewer than 41 countries worldwide, as compared to 418 entries (38 different countries) in 2008 and 405 entries in the 2007 volume, respectively. We have received 29 new entries this year, and deleted 25 entries that were not updated by contributors from past

years. In 2008, 129 AIM numbers were submitted as compared to 106 in 2007. This year the number has risen again to 136 AIM numbers submitted. This year we also see the introduction of the h-index number listing, a publication statistic provided by the Thompson's ISI Web of Science. Some 42 contributors provided their h-numbers. In 2009 we also see a continued and

strong company support, in light of the current world economic climate, which will enable us to further disseminate the volume in 2009- 2010. In this regard we especially thank the instrumental companies for their continued support, where without their financial contributions, it is likely that the volume would not be the success it is today.

This book constitutes the thoroughly refereed proceedings of the international workshops associated with the 32nd International Conference on Advanced Information Systems Engineering, CAiSE 2020, which was planned to take place in Grenoble, France, during June 8-12, 2020. Due to the Coronavirus pandemic the conference was held

virtually. The workshops included in this book are: KET4DF, The Second International Workshop on Key Enabling Technologies for Digital Factories ISESL, The First International Workshop on Information Systems Engineering for Smarter Life The total of 8 full and 3 short papers presented in this volume were carefully reviewed and selected from 20 submissions. The book also contains one

<p>invited talk. <i>Abstracts</i> Walter de Gruyter GmbH & Co KG The first complete and detailed catalogue of Lavoisier's collection of instruments preserved at the Musée des Arts et Métiers in Paris. The story of the collection is carefully reconstructed and its instruments (all illustrated) are described in detail. <i>A Dubious Science</i> Walter de Gruyter GmbH & Co KG A Dubious Science tells</p>	<p>the story of nineteenth- century French political economy, an academic discipline that aspired to the status and authority of a «hard» science alongside such disciplines as physics and chemistry. It chronicles political economists' encounter with «the social question» - all those unexpected social consequences of nineteenth- century industrializatio</p>	<p>n - which offered concrete evidence that industrial capitalism showed few signs of guaranteeing happiness and economic success to all productive members of society. The social question forced economists to admit that their theoretical assumptions were not working in practice the way they were supposed to in theory and to confront the possibility that their science</p>
--	--	---

<p>might be less certain than they had believed. This book explores the relationship between the unexpected socio-economic realities of an industrializing society and the disciplinary formation and self-protection of an aspiring human science, and it links political economy's aspirations to governmentality, that peculiarly modern type of power explored by Michel Foucault. Like</p>	<p>other «dubious» human sciences during the nineteenth century, French political economy was embroiled in a network of interventionist strategies, administered both from inside and outside the state, designed to produce docile bodies, obedient souls, and a content and productive population. A Dubious Science should prove valuable in courses on</p>	<p>economic thought and its history; the history of the human sciences; the history and sociology of the professions; as well as the broader history of European industrialization and its consequences .</p> <p><u>Multilateral Trade Negotiations</u> Edition Axel Menges Vol. 1 includes report of the 1st annual meeting, committee reports and technical papers.</p> <p><u>Advanced</u></p>
