Fully in-line with the Framework for Teaching Mathematics, this series provides coverage of the curriculum intended to enable students to revise and consolidate key concepts. Every chapter contains questions in the style of the National Tests. The three Ma1 tasks in every students book have detailed marking guidance in the equivalent teacher file to support key assessment at the end of the key stage. The last resource section of this file contains a series of summary activities for new or previously absent teachers or pupils, covering all the chapters. Additions such as question banks and ICT CD-ROMs are available to provide further support.

PLEASE NOTE - this is a replica of the print book and you will need paper and a pencil to complete the exercises. Love it or hate it, maths is an essential subject to know. Now you can master it with this colorful practice ebook. Do you feel a bit left behind in maths class? Or are you a maths genius and want to practice more at home? DK's How to be Good at Maths course book for children aged 7-12 now has two accompanying workbooks: Workbook 1 covers ages 7-9 and Workbook 2 covers ages 9-12. These workbooks will help to cement everything you need to know about maths through practice questions and practical exercises. Easy-to-follow instructions allow you to try out what you've studied, helping you understand what you've learned in school or giving extra revision practice before that important test.

Workbook 2 is aimed at children aged 9-12 (Upper Key Stage 2 in the UK, Grades 4, 5, and 6 in the US), and covers all the key areas of the school curriculum for this level, including working with fractions and decimal numbers, percentages, long multiplication and division, measurement, geometry, coordinates, statistics, probability, and basic algebra. And there are answers at the back to check that you're on the right path. This workbook accompanies DK's How to be Good at Maths coursebook, but can also be used on its own to reinforce classroom teaching.
