Excerpt from Executorship Accounts On page 10 against the marginal note "Succession Duty" it is

stated that, "as the freehold works are bequeathed without any directions for sale, these pass at once without any act on the part of the Executors." This is not now correct, as since the death of my Testator and the consequent succession of his nephew, the Land Transfer Act of 1897 has been passed, under which the estate in real property vests in the Executor or Administrator, and if it has been specifically devised the assent of the Executor to the devise is necessary to complete it. In the meanwhile the Executor is Trustee for the Devisee. If any rents are received while the property is in the Trustee's possession it will be necessary to open Accounts with the Property, and with the Devisee, but if the assent is given immediately it will be sufficient to make a note upon the "Principal" Account of the nature of the Property, the name of the Devisee, and the date when assent was given by the Executor. Excerpt from Theory and Practice of Estate Accounting for Accountants, Lawyers, Executors, Administrators and Trustees The object of this book is to give to the estate accountant, under one cover in handy form, first, the general legal principles on which estate accounting is based and secondly, the practical application of these principles. In our search for such information we have found the legal principles stored away in works of many volumes which are scarcely ever accessible to the accountant, and at times not even to the lawyer himself. As for any authorities which might assist us in making a practical application of these principles, we have located none. To be fair, we have found brethren who have enumerated what pitfalls we might encounter, but the same have not turned 'a hand to assist us in avoiding them. In short, no one has told us what entries to make and why they should be made. The reason that no such assistance has been tendered is probably due to the fact that no accountant has deemed himself sufficiently grounded in the legal theory underlying estate accounting to offer any; and on the other hand, surely no lawyer, no matter how thoroughly versed in estate law, would dare to submit to the world of accounting an exposition on estate accounting.
