Islamic Alternatives are the proceedings of a symposium which was held in April 2014 within the framework of a research project entitled The Khaksar Order between Ahl-e Haqq and Shiite Sufi Order, funded by the German Research Foundation. The tradition and belief system of the Khaksar is closely connected to several cultural and religious traditions across a vast geographical area in the Orient: the territory of Persianate societies, which might also be called 'the territory of wandering dervishes'. The extensive historical and cultural relations and associations, the similarities between the Khaksar Order and the Futuwwa tradition or religious communities (such as the Ahl-e Haqq (Yarsan) and Bektashi order in different geographical territories), the relationship between this order and Dervish groups in Pakistan and Central Asia on the one hand and its connection with the official orthodox Shia on the other hand are the main topics dealt with in the present book. The commonalities and cultural relations of these numerous and diverse cultural traditions as well as the heterodox movements in this region are so substantial that understanding the related aspects of each helps us gain a deeper knowledge of the whole subject matter. This symposium and the present proceedings attempt to gather as many specialists of these diverse but associated themes as possible in order to achieve a better understanding of these concepts.

Jeder Einsatz ist anders, nicht immer ist man in Höchstform: Das ist wohl jedem Feuerwehrangehörigen bekannt. Betrachtet man die gefahrenen Einsätze im Nachhinein, findet man oft einiges, was man hätte besser machen können. Eigentlich müsste man die Erfahrungen notieren, um beim nächsten Alarm davon zu profitieren. Diese Idee ist Grundlage des bereits fast 15.000 Mal im Einsatz befindlichen Taschenbuches. Die Sammlung von taktischen Hinweisen, nach Einsatzlagen zusammengestellt, ist eine wertvolle Hilfe, um einen Einsatz von A - Z strukturiert abzuarbeiten. Diese Listen sollen und können eine solide, fachliche Feuerwehrausbildung nicht ersetzen. Vielmehr will dieses Werk Einsatzkräften mit Führungsaufgaben einen „Roten Faden“ an die Hand geben, um auch unter ungünstigen Umständen ein optimales Einsatzergebnis zu erzielen. Gut ausgebildete Feuerwehkräfte werden nicht mehr als die aufgeführten Stichworte benötigen. Die farbliche Gliederung in die Bereiche Allgemeines, Feuer, Technische Hilfe und GSG hilft dabei, die für den jeweiligen Einsatz benötigte Information schnell aufzufinden. Querverweise führen den Benutzer automatisch zu weiteren, eventuell relevanten Gefahrenpunkten. Das Taschenbuch mit kompakter Form, stabilem Einband und robustem Papier kann man ständig mit sich führen: eine sinnvolle Ergänzung der Einsatzrüstung jeder Führungskraft.

VUCA (volatility, uncertainty, complexity, ambiguity) bestimmt unsere Umwelt, im privaten wie im Unternehmenskontext. Krisen stehen auf der Tagesordnung, so dass Krisenanzipation, Anpassung, Regeneration von und Lernen aus der Krise immer wichtiger für eine erfolgreiche Lebens- und Arbeitsgestaltung werden. Diese Krisenkompetenz heißt Resilienz. Coachs, Führungskräfte und UnternehmerInnen erhalten in diesem Sammelband einen umfassenden Überblick über die Herangehensweisen an Resilienz. Denn Resilienz ist einerseits die Fähigkeit, flexibel mit Krisen und Dauerbelastung umzugehen. Andererseits ermöglicht Resilienz aber auch, sensibel auf Warnzeichen für künftige Krisen zu reagieren sowie nach der Krise schneller wieder handlungsfähig zu werden. Resilienz ist für Individuen und Organisationen gleichermaßen eine wichtige Fähigkeit geworden.

Wilderness EMS [Boston] : Duell, Sloan and Pearce-Little, Brown

There is a worldwide epidemic crossing all cultural, financial, intellectual, and religious boundaries. This epidemic causes diseases, dysfunctions, and many difficulties in the lives of those it effects. There is no place on earth this diabolical epidemic cannot reach. It is an epidemic affecting generations of people, it is the lack of a father and a fathers blessing. Did you know that your Father God created you to receive a blessing from your earthly father? This blessing was meant to release you into adulthood, prosperity, joy, peace, and to bring you into your true self and purpose in life! This little booklet is the result of a conversation I had with another beloved brother and sister in Christ. It is directly derived from our conversation and from the answer to their question, "How do we impart the Fathers blessing to those in need?" As I answered this question it was clear that what I was sharing as the Lord gave it to me, needed to be recorded. It is time that the multitude of people who are hurting and yearning for a Fathers blessing be released and blessed into their God-given identity! I have seen multitudes of curses broken instantly, bodies healed, souls restored, joy restored, fears leave, depression healed, pain disappear, a new desire for life to come where before there was no hope or desire to live, marriages radically changed, and on and on. All these wonderful things happened as a result of receiving a fathers blessing. It is truly wonderful and amazing to behold the Father come into the deep places within His precious children to heal, restore, and welcome them back into His heart of pure love!

In the past few decades, scientists of human nature—including experimental and cognitive psychologists, neuroscientists, evolutionary theorists, and behavioral economists—have explored the way we arrive at moral judgments. They have called into question commonplaces about character and offered troubling explanations for various moral intuitions. Research like this may help explain what, in fact, we do and feel. But can it tell us what we ought to do or feel? In Experiments in

Ethics, the philosopher Kwame Anthony Appiah explores how the new empirical moral psychology relates to the age-old project of philosophical ethics. Some moral theorists hold that the realm of morality must be autonomous of the sciences; others maintain that science undermines the authority of moral reasons. Appiah elaborates a vision of naturalism that resists both temptations. He traces an intellectual genealogy of the burgeoning discipline of "experimental philosophy," provides a balanced, lucid account of the work being done in this controversial and increasingly influential field, and offers a fresh way of thinking about ethics in the classical tradition. Appiah urges that the relation between empirical research and morality, now so often antagonistic, should be seen in terms of dialogue, not contest. And he shows how experimental philosophy, far from being something new, is actually as old as philosophy itself. Beyond illuminating debates about the connection between psychology and ethics, intuition and theory, his book helps us to rethink the very nature of the philosophical enterprise.

Across small cottages and lavish villas, beach houses and forest refuges, discover the world's finest crop of new homes. This cutting-edge global digest features such talents as Shigeru Ban, MVRDV, and Marcio Kogan alongside up-and-coming names like Aires Mateus, Xu Fu-Min, Vo Trong Nghia, Desai Chia, and Shunri Nishizawa. Here, there are homes in Australia and New Zealand, from China and Vietnam, in the United States and Mexico, and on to less expected places like Ecuador and Costa Rica. The result is a sweeping survey of the contemporary house and a revelation that homes across the globe may have more in common than expected. Among guava trees and abandoned forts in Western India is a sanctuary designed for and by Kamal Malik of Malik Architecture. The House of Three Streams is a sprawling spectacle with high ceilings, verandas, and pavilions, perched atop a ridge overlooking two ravines. A medley of steel, glass, wood, and stone, the house weaves along the contour of the landscape, almost as an extension of the forest. Encina House by Aranguren & Gallegos, an elegant, sloping structure reminiscent of a gazebo, similarly inhabits its surrounding vista. Ensclosed in a pine forest north of Madrid, the lower level is embedded in rock and connected to the upper by a natural stone wall. Shinichi Ogawa's Seaside House is an immaculate two-story minimalist marvel in Kanagawa that overlooks the Pacific. Its living area spills onto a cantilevered terrace and infinity pool, almost dissolving into the ocean as one seamless entity. In Vietnam, Shunri Nishizawa's House in Chau Doc exudes tropical sophistication with exposed timber beams, woven bamboo, plants, concrete panels, and inner balconies and terraces. Its corrugated iron panels act as moveable walls and shutters, ushering in views of surrounding rice fields. These homes--along with more than 50 others--are each remarkably distinct in design. They all, however, toe the line between inside and outside, each one symbiotic with its surroundings.

This first Western-language translation of one of the great books of the Daoist religious tradition, the Taiping jing, or "Scripture on Great Peace," documents early Chinese medieval thought and lays the groundwork for a more complete understanding of Daoism's origins. Barbara Hendrichske, a leading expert on the Taiping jing in the West, has spent twenty-five years on this magisterial translation, which includes notes that contextualize the scripture's political and religious significance. Virtually unknown to scholars until the 1970s, the Taiping jing raises the hope for salvation in a practical

manner by instructing men and women how to appease heaven and satisfy earth and thereby reverse the fate that thousands of years of human wrongdoing has brought about. The scripture stems from the beginnings of the Daoist religious movement, when ideas contained in the ancient Laozi were spread with missionary fervor among the population at large. The Taiping jing demonstrates how early Chinese medieval thought arose from the breakdown of the old imperial order and replaced it with a vision of a new, more diverse and fair society that would integrate outsiders—in particular women and people of a non-Chinese background.

The term Taoism of Clarified Tenuity designates a new branch of religious Taoism developed since the 13/14th century by priests of the long-established Heavenly Masters Taoism. They claimed to continue Taoist exorcist traditions that since the Sung-period especially flourished because emperor Sung Hui-tsung (r. 1100-1126) appreciated the exorcism of Taoism of the Divine Emyrean and Five Thunders rituals. The purpose of the exorcist rituals was the expulsion of demoniac molestations, relief from droughts and inundations, and the healing of illnesses. Outstanding priests rationalized the exorcist practice, using theories of a meditative self-cultivation which peaked in the transformation into a Thunder divinity. The priest adopted a divine alter ego for the time of the ritual. Taoism of Clarified Tenuity developed on the basis of these traditions and embraced regionally different religious habits. It adopted and adapted older cults, partly including Buddhist-Tantric practices. Leading priests of Clarified Tenuity presented theoretical essays, discussing the requirements of the personal cultivation of the Taoist to be a worthy performer of exorcism who was entitled to write and use amulets. The amulet was the essential ritual tool. However, the amulets of Clarified Tenuity were remarkably different from the older Thunder amulets of the Sung era. Also, the new branch adopted different attitudes concerning ritual practices such as the transformation into a divinity. The book features developments of the more recent Taoist history and presents content and intention of Taoism of Clarified Tenuity. The selected canonical texts also show that the priests of Clarified Tenuity insisted on a clear distinction between exorcism in Heavenly Masters Taoism and shamanism that they disavowed. The book presents and analyses several Great Rituals of Clarified Tenuity and features elements of religious Taoism that today can still be traced.

In China, in the first centuries of the Common Era, prognostication was a widely used tool of political decision making, of cultural and ideological expression and, increasingly, also of popular resistance. The Scripture on Great Peace originated in this environment. It contains warnings of a universal cataclysm and suggests a radical social and religious reorientation as means of salvation. Thereby, it connects insights and ideas of the empire's academic establishment to experiences and concerns of the population at large. It belongs to the earliest textual sources for Daoism, that is, for China's indigenous religion that took shape when the imperial government and with it the empire fell apart in the second century CE. The present volume documents the Scripture's doctrinal and stylistic diversity. The selected materials stem from different parts of the long text. Some focus on eschatological scenarios, others, in contrast, on utopian hopes for the reform of humankind and its future under the auspices of "Great Peace". Still others design schemes for personal immortality. In this study, these materials are translated into a Western language for the first time. The translations are accompanied by extensive explanatory annotations.

Born and educated in Germany, Walter Gropius (1883-1969) belongs to the select group of

architects that massively influenced the international development of modern architecture. As the founding director of the Bauhaus, Gropius made inestimable contributions to his field, to the point that knowing his work is crucial to understanding Modernism. His early buildings, such Fagus Boot-Last Factory and the Bauhaus Building in Dessau, with their use of glass and industrial features, are still indispensable points of reference. After his emigration to the United States, he influenced the education of architects there and became, along with Mies van der Rohe, a leading proponent of the International Style.

Beim Zugführerlehrgang spielt die praktische Ausbildung eine ganz wesentliche Rolle. Die Teilnehmer müssen mehrere Übungslagen mit einem (Lösch-)Zug absolvieren. Hierzu ist ein umfangreiches einsatztaktisches Wissen unerlässlich. Das Buch stellt zunächst die Aufgaben eines Zugführers und die Zusammensetzung eines Zuges vor. Anschließend behandelt der Autor die möglichen Einsatzformen des Zuges und die verschiedenen Taktiksysteme. Eine Erläuterung der Führungsgrundsätze und Führungsmittel sowie die Besonderheiten bei verschiedenen Einsatzlagen runden das Thema ab.

A sweeping selection of Donald Judd's iconic and ambitious works alongside a diverse collection of newly commissioned writings One of the most significant American artists of the postwar period, Donald Judd rigorously experimented with color, form, material, and space. The works in this catalogue range from the artist's expansive installations to self-contained single units, yielding valuable new insights into his process and approach. The survey includes one of the artist's largest and most intricate installations of sixty-three wall-mounted plywood boxes, conceived in 1986. Other works include variations on some of Judd's most recognizable forms, executed in materials such as Cor-ten steel, plexiglass, copper, plywood, brushed aluminum, and enameled aluminum. Brilliant and exacting reproductions bring these works to life on the page. Following the artist's major retrospective at The Museum of Modern Art, New York, in 2020, this book serves as a companion volume. With contributions from a wide range of voices—art historians, critics, writers, and performers— this publication includes rich new writings on Judd's oeuvre, art criticism, and enduring influence. Artworks: 1970-1994 is published on the occasion of the eponymous 2020 exhibition at David Zwirner, New York.
