Ces lettres écrites par un poilu de la grande guerre nous font le récit de son dernier combat. Ce soldat est âgé de 110 ans ! Il est le dernier vétéran de l'armée française encore en vie. La guerre qu'il nous narre ne se déroule pas sur un champ de bataille, mais dans une chambre d'hôpital ! Il est hospitalisé contre son gré. Les médecins ont pour mission de le garder en vie le plus longtemps possible. Objectif inavoué de cet acharnement : faire que le dernier poilu français survive au dernier vétéran allemand. Désormais, les deux nations ne confrontent plus leurs puissances militaires, mais leurs systèmes de santé. Ces lettres racontent de

façon burlesque ce combat qu'il doit livrer seul contre la raison d'état. Non plus au péril de sa vie, mais au risque de voir lui échapper sa propre mort.

« Avec un écrivain, à travers ses livres, on peut avoir des rapports aussi profonds, et complexes, qu'avec n'importe quel homme vivant. Primo Levi était un homme. Je l'ai visité autrefois et j'ai senti le courant magnétique. La joie qu'on éprouve à une telle rencontre n'a rien à voir avec des théories d'école, ni même avec la raison. Il s'est intégré à ma vie, et m'a beaucoup aidée au cours d'années très lourdes. D'autres, aujourd'hui, cherchent encore à le rencontrer. C'est pour eux que j'ai décidé, alors que les commentaires fleurissent, ainsi que les inédits, de revisiter Primo Levi. » C. Q. Tohu-bohu ou Primo Levi visité Préface à la visite I. 1916, le front italien. Un soldat revient dans sa ville natale, où il ne trouve que mort et désolation. La Première Guerre mondiale vue par deux auteurs anglais Robbie Morrison et Charlie Adlard. En plein milieu de la « Der des ders », Pietro rentre chez lui dans les montagnes du Trentino. À la place du monde de merveilles et d'aventures dont il se souvient, il trouve un lieu de mort où les éléments sont aussi dangereux que l'ennemi. Tous les soldats craignent la Mort Blanche, ces avalanches provoquées par les coups de canons...

Manipulation, soumission ou incrédulité : la guerre comme en 14, d'un petit village du bord de Marne jusqu'aux tombeaux ouverts du front... "Ce que j'ai pu consommer de Bretons..." disait Nivelles sans la moindre émotion, oubliant un peu vite que dans la poitrine de chacun d'entre eux, battait un cœur d'homme, qui avait tout autant que le sien le droit de continuer de battre... À la veille du centenaire de cette grande boucherie de notre histoire nationale que fut la guerre de 1914-18, Alain Roué dénonce avec un humour grinçant la façon dont une fois de plus l'État s'est permis de consommer à souhait la vie de centaines de milliers

d'hommes. C'est sous la forme d'une pièce en cinq tableaux que l'auteur nous livre cette "Der des ders", qui donne à réfléchir sur ces mots de liberté, d'égalité et de fraternité dont notre république semble si fière. Un bel hommage aux poilus sacrifiés le plus souvent inutilement, par des officiers parfois incompetents, à la botte de politiciens trop souvent cyniques et carriéristes.

Whereas in English-speaking countries comics are for children or adults 'who should know better', in France and Belgium the form is recognized as the 'Ninth Art' and follows in the path of poetry, architecture, painting and cinema. The bande dessinée [comic strip] has its own national institutions, regularly obtains front-page coverage and has received the accolades of statesmen from De Gaulle onwards. On the way to providing a comprehensive introduction to the most francophone of cultural phenomena, this book considers national specificity as relevant to an anglophone reader, whilst exploring related issues such as text/image expression, historical precedents and sociological implication. To do so it presents and analyses priceless manuscripts, a Franco-American rodent, Nazi propaganda, a museum-piece urinal, intellectual gay porn and a prehistoric warrior who's really Zinedine Zidane. Laurence Grove is Senior Lecturer and Head of French at the University of Glasgow. His previous affiliations include the University of Pittsburgh, the Newberry Library (Chicago), Middlebury College (Vermont) and the Université Rennes 2. La vengeance de Mehdi Baadi Dundurn

Paris, janvier 1920. L'ancien combattant Eugène Varlot, reconverti en détective privé, est contacté pour une mission par l'ancien " héros " du 296e régiment d'Infanterie, le colonel Fantin de Larsaudière. L'enquête, présentée à l'origine comme un banal constat d'adultère, va finalement mener aux mutineries de 1917 et au trafic de stocks américains d'après-guerre, se révélant de ce fait pleine de dangers... En adaptant fidèlement cette oeuvre de Didier Daeninckx, maître du roman noir, Tardi se délecte. D'une part idéologiquement, en revenant sur la dénonciation de la guerre ; d'autre part graphiquement, en dessinant magnifiquement Paris et ses banlieues au début du XXe siècle. L'étude de cette adaptation permet d'appréhender la richesse et la particularité de la bande dessinée, notamment au travers des notions d'ellipse, de suspense, de registre de tangué, de pastiche et de parodie. Elle permet aussi de découvrir certains aspects peu connus de la Première Guerre mondiale, comme la mutinerie des troupes russes en France. L'appareil pédagogique complet est suivi d'une interview exclusive de Didier Daeninckx et d'un lexique BD.

In the waning days of World War I, a horrific crime behind the lines sends Lieutenant Gregor Reinhardt on a search for a killer in this electrifying thriller from the author of *The Man from Berlin*. It's the final days of the Great War and four years of grinding conflict has warped more than one man's mind. When a secret meeting of top brass is called, someone sets off a bomb that kills all the attendees. It looks for sure that one of the men in Gregor

Reinhardt must prove his trooper innocent if he hopes to avoid the fate of a co-conspirator. The search for answers leads Reinhardt deep into a potential conspiracy populated by mutinous soldiers, a mysterious Russian nobleman, and a pair of doctors who may be doing more than treating battlefield injuries. The Representation of Parisian Speech in the Cinema of the 1930s Univ. Press of Mississippi

The twenty-seven original contributions to this volume investigate the ways in which the First World War has been commemorated and represented internationally in prose fiction, drama, film, docudrama and comics from the 1960s until the present. The volume thus provides a comprehensive survey of the cultural memory of the war as reflected in various media across national cultures, addressing the complex connections between the cultural post-memory of the war and its mediation. In four sections, the essays investigate (1) the cultural legacy of

the Great War (including its mythology and iconography); (2) the implications of different forms and media for representing the war; (3) 'national' memories, foregrounding the differences in post-memory representations and interpretations of the Great War, and (4) representations of the Great War within larger temporal or spatial frameworks, focusing specifically on the ideological dimensions of its 'remembrance' in historical, socio-political, gender-oriented, and post-colonial contexts.

The First World War saw staggering loss of life and was a catalyst for many political and social changes. It was also shaped by the media and art forms that expressed it: film, photography, poetry, memoir, posters, advertisements, and music. This volume's scope shows that today's instructors contend with many different issues in teaching the First World War in a variety of classroom settings. Among these issues are the war's relation to modernism; global reach in the Middle East and South Asia; influence on psychiatry, pacifism, and consumer culture; and effect on public health and the 1918 influenza pandemic.

Memory, while seemingly a thing of the past, has much to reveal in the present. With its focus on memory, War and Remembrance provides new viewpoints in the field of war representation. Bringing an interdisciplinary approach to discussions of the cultural memory of war, the collection focuses on narratives, either fictional or testimonial, that challenge ideological discourses of war. The acts of remembrance and of waging war are constantly evolving. A range of case studies - analyzing representations of war in art, film, museums, and literature from Nigeria, Australia, Sri Lanka, Canada, and beyond - questions our current approaches to memory studies while offering reinterpretations of established narratives. Throughout, a

commitment to Indigenous perspectives, to examining the ongoing legacy of colonialism, and to a continued reckoning with the Second World War foregrounds what is often forgotten in the writing of a single, official history. War and Remembrance invites readers to cast a reflexive look at wars and conflicts past – some of them forgotten, others still vividly commemorated – the better to understand the cultural, political, and social stake of memory as a source of conflict and exchange, of resistance and opposition, and of negotiation and reconciliation.

The essays collected in this volume were first presented at the international and interdisciplinary conference on the Graphic Novel hosted by the Institute for Cultural Studies (University of Leuven) in 2000. The issues discussed by the conference are twofold. Firstly, that of trauma representation, an issue escaping by definition from any imaginable specific field. Secondly, that of a wide range of topics concerning the concept of “visual narrative,” an issue which can only be studied by comparing as many media and practices as possible. The essays of this volume are grouped here in two major parts, their focus depending on either a more general topic or on a very specific graphic author. The first part of the book, “Violence and trauma in the Graphic

Novel”, opens with a certain number of reflections on the representation of violence in literary and visual graphic novels, and continues with a whole set of close readings of graphic novels by Art Spiegelman (*Maus I and II*) and Jacques Tardi (whose masterwork “*C’était la guerre des tranchées*” is still waiting for its complete English translation). The second part of the book presents in the first place a survey of the current graphic novel production, and insists sharply on the great diversity of the range in the various ‘continental’ traditions (for instance underground ‘comix’, and feminist comics, high-art graphic novels, critical superheroes-fiction) whose separation is nowadays increasingly difficult to maintain. It continues and ends with a set of theoretical interventions where not only the reciprocal influences of national and international traditions, but also those between genres and media are strongly forwarded, the emphasis being here mainly on problems concerning ways of looking and positions of spectatorship.

1918 BRILL

This book brings together a series of papers presented at a University of Montreal interdisciplinary conference held in March 2014 and devoted to various little-known facets of the First World War’s cultural and social history. The commemorative activities of the war’s centennial triggered the conference, as this anniversary had precipitated a lively renewal of historical reflections on the causes and consequences of this global conflict. If the commemoration was an occasion to foster a more civic-minded pedagogical approach regarding the meaning of this major historical event, the conference itself strove to engage the rich and substantial body of research about the war that had evolved

over the past few decades. While taking national and regional approaches into account, this book also aligns itself with the recent interest in a global history of the Great War that, by not excluding various national traditions, strives to re-examine the causes and consequences of the conflict from a perspective whose scope extends beyond Europe. By engaging in a broader temporal and spatial consideration of the war, this standpoint not only calls into question the relevance of using the nation-state as a singular political and cultural framework with which to understand the conflict, but also, and especially, strives to more clearly apprehend peripheral geopolitical spaces, particularly Africa and the Americas, in the conflict and to integrate them more effectively.

Our global literary field is fluid and exists in a state of constant evolution. Contemporary fiction in French has become a polycentric and transnational field of vibrant and varied experimentation; the collapse of the distinction between 'French' and 'Francophone' literature has opened up French writing to a world of new influences and interactions. In this collection, renowned scholars provide thoughtful close readings of a whole range of genres, from graphic novels to crime fiction to the influence of television and film, to analyse modern French fiction in its historical and sociological context. Allowing students of contemporary French literature and culture to situate specific works within broader trends, the volume provides an engaging, global and timely overview of contemporary fiction writing in French, and demonstrates how our modern literary world is more complex and diverse than ever before.

Dans une stridence de métal, le train s'engagea sur un splendide pont suspendu dont les grandes voiles treillissées de titane laissaient chanter leur armature au vent. À soixante mètres au-dessus du vide, heureux d'échapper à la pesanteur qui l'avait tenu encoffré toute l'année, le babouchier éprouva le sentiment de sauter dans l'inconnu, comme un brodeur d'escales avide de colorier le monde sans retouche, à même la pulpe de l'existence. Au-delà du fleuve, des tours en verre fumé se découpaient d'une façon presque irréelle sur le bleu éthéré du ciel. Au moment où la locomotive lança un cri déchirant, il comprit qu'il venait de fausser compagnie à son passé et qu'une nouvelle page de vie s'offrait à lui. En apesanteur entre deux rives, il savoura cet instant suprême avant d'ouvrir son guide qu'il feuilleta distraitemment, conscient que sa destination importait peu puisque sa destinée s'était remise en mouvement. Soudain, un étrange pays attira son attention : Krishnewrhubarbe. Aussitôt, il se plongea dans la lecture...

They Fought in Colour / La Guerre en couleur Delcourt

More and more people are noticing links between urban geography and the spaces within the layout of panels on the comics page. Benjamin Fraser explores the representation of the city in a range of comics from across the globe. Comics address the city as an idea, a historical fact, a social construction, a material-built environment, a shared space forged from the collective imagination, or as a social arena navigated according to personal desire. Accordingly, Fraser brings insights from urban theory to bear on specific comics. The works selected comprise a variety of international, alternative, and independent small-press

comics artists, from engravings and early comics to single-panel work, graphic novels, manga, and trading cards, by artists such as Will Eisner, Tsutomu Nihei, Hariton Pushwagner, Julie Doucet, Frans Masereel, and Chris Ware. In the first monograph on this subject, Fraser touches on many themes of modern urban life: activism, alienation, consumerism, flânerie, gentrification, the mystery story, science fiction, sexual orientation, and working-class labor. He leads readers to images of such cities as

Barcelona, Buenos Aires, London, Lyon, Madrid, Montevideo, Montreal, New York, Oslo, Paris, São Paulo, and Tokyo. Through close readings, each chapter introduces readers to specific comics artists and works and investigates a range of topics related to the medium's spatial form, stylistic variation, and cultural prominence. Mainly, Fraser mixes interest in urbanism and architecture with the creative strategies that comics artists employ to bring their urban images to life.
