In this very personal book, Stirling Moss guides the reader through his motor racing life with a fascinating, insightful and often amusing commentary to an unrivalled collection of over 300 photographs, many of which will be unfamiliar to even his most ardent fans. He takes us from his childhood to the height of his fame as 'Mr Motor Racing' and then to the sudden end of his career with that crash at Goodwood in 1962. Along the way we dwell on his finest moments as well as the setbacks, and delight in the sheer variety of machinery - almost 100 different cars - in which he competed during his rollercoaster racing life. This is a book that all motor racing enthusiasts will treasure. - Starting in 1948, he made his name in little 500cc Coopers, moving towards stardom in HWM, ERA and Cooper F2 cars, then his own F1 Maserati 250F. - The 1955 Mercedes season and its twin highlights - winning the Mille Miglia and the British Grand Prix. - His longing to win in British cars was rewarded with two fine F1 seasons at Vanwall (1957-58), with whom he came very close to winning the F1 World Championship, and sports car successes with Aston Martin. - Rear-engined Cooper and Lotus F1 cars with Rob Walker (1958-62), including two celebrated Monaco GP wins. - Two-seater variety: the amazing range of sports cars he drove included Jaguars (XK120, C-type and D-type), Maseratis (150S to 450S), Ferraris (250 GT SWB and Testa Rossa) and Porsches (550 Spyder to RS61), plus Frazer Nash Le Mans Replica, Osca, Healey 100S, Cooper 'Bobtail' and more. - Ever busy and versatile: rallying with Sunbeams, trialling a Harford special, Bonneville record-breaking with MG EX181, saloon car racing in a humble Standard Ten - and even a kart race. - Published to mark the 60th anniversary of Moss's famous win in the 1955 Mille Miglia road race in a Mercedes 300SLR. Foreword by 2014 Formula One World Champion Lewis Hamilton.

Originally published to great acclaim in 2006, Dr. Stephen Olvey's memoir *Rapid Response* makes a long-awaited return to print — complete with new text and an afterword by Dario Franchitti — at the same time as the release of a documentary feature film of the same title. This book is the compelling story of the author's often tragic, sometimes funny, and frequently frustrating journey through the volatile world of professional motorsports. Along the way, he introduces many of the characters — geniuses, good guys, bad guys — that he has encountered during his quest to save lives and make motorsports safer. Among the racing legends with whom Dr. Olvey has worked — and who have their places in this book — are Mario Andretti, Emerson Fittipaldi, A.J. Foyt, Graham Hill, Nigel Mansell, Rick Mears and Al Unser Jr. Dr. Olvey attended his first race, the 1955 Indianapolis 500, at the impressionable age of 11, and saw his favourite driver, Bill Vukovich, killed in a fiery crash while leading. He began working at the famous Indianapolis Motor Speedway while attending medical school, making his first professional appearance there in 1966, when his first on-track rescue involved Graham Hill in his rookie year. Dr. Olvey organised the first traveling medical team in motorsports and was eventually joined by long-time colleague and friend, Dr. Terry Trammell. Continuing to work together over several decades, Dr. Olvey and Dr. Trammell have used their study of the cause and effect of racing crashes and injuries to make significant advances in safety, with many lives saved and serious injuries avoided. The writer of the foreword is Alex Zanardi, whose life Dr. Olvey helped to save after a violent accident in Germany in 2001, and who subsequently returned not only to motorsports, but also to handcycling, becoming a three-time Paralympic gold medalist.

Drawing together original research which weaves together ideas from theology, philosophy, feminism and writing on mothering and child development, Emma Percy affirms and encourages aspects of good practice in ministry that are in danger of being overlooked because they are neither well-articulated nor valued. Offering a fresh look at parish ministry, this book uses a maternal metaphor to provide an integrated image of being and doing. The metaphor of mothering is used to explore the relational aspect of parish ministry which needs to value particularity and

concrete contingent responsiveness. Percy suggests virtues that need to be cultivated to guard against the temptations to intrusive or domineering styles of care on the one hand or passive abnegation of responsibility on the other. Parish ministry cannot be understood in terms of tangible productivity; different ways of understanding success and evaluating priorities need to be developed. The book suggests ways of being 'good enough' clergy who can find the right balance between caring for people and communities whilst encouraging and acknowledging the maturity of others.

An expert carpenter, Greg Kossow presents a vibrantly visual guide that details every possible project, from the most basic baseboards, to the most complicated casings. The book's ingenious design makes it a snap to find the relevant information for each project and Kossow includes a crystal-clear table of contents. Plus, unlike most other books that only deal with basic carpentry, "Trim Complete" includes hard-to-find advice on complex crown molding and making custom modling.
