Look, Look! Gakken

Newborn babies as young as six weeks old will be mesmerized by the bold shapes and colors in BABY SEES COLORS! This book makes a perfect gift for a new baby—parents, grandparents, and other caretakers will love the bonding experience of reading this lovely board book aloud to infants or one-year-olds. ****2019 National Parenting Product Awards Winner**** (NAPPAawards.com) Based on decades of research and refinement, the art in this high-contrast board book will help babies focus and begin to discern shapes and colors. Written by popular children's book author Akio Kashiwara, BABY SEES COLORS has simple, uplifting images and rhymes. Babies soak in everything they hear, and eventually learn to associate particular sounds with familiar people and things. Hundreds of thousands of parents in Japan have already discovered the power of this little book, and now American parents can too! This adorable, sturdy book will still look new after being loved for years, and will find a place on the

shelf next to classic board books like Eric Carle's *The Very Hungry Caterpillar*, *Brown Bear, Brown Bear, What Do You See?*; *Chica Chica Boom Boom*, and Sandra Boynton's classics. What parents are saying: "My baby started being very interested in this as soon as she could focus, around one and a half months. This is a great first book!" "GREAT first book for baby. My two month old twins LOVE when I read and show them this book." "Attention Grabber! Super cute book! Really grabs my 2 month old's attention!" *Baby's Very First Train Book* *Baby's Very First Books* Striking and stylish, *Look Look!* is the ideal first board book for babies just beginning to look and learn and a perfect gift for little hands. Look, look! Children run, fish swim, stars shine . . . all for baby's eyes to see. This sturdy board book, full of high-contrast black-and-white cut-paper art perfect for staring at, is just the thing for the eyes of the youngest babies. A few words in curving red type on each spread describe the scenes—a car races, a cat stretches, flowers bloom—and extend the book's age appeal so that it will be fascinating to older babies, too.

See, Touch, Feel Rockridge Press

"An engaging, interactive board book, specially designed for very young children, full of vivid colors and stylish illustrations. Simple

slider mechanisms allow the pictures to be transformed, as a teddy bear gets ready to go to bed and as little badger gets out of his lair."

Baby's Very First Slide and See Farm Gakken

This baby is happy. Can you make a happy face? Find the happy baby! This bold, beautiful board book features six essential facial expressions: happy, sad, angry, surprised, silly, and sleepy. The idea is simple: Show a large, establishing image of a baby's face, then children making the same face, then ask the reader to find that baby among several other faces. The very last spread includes all of the baby faces and a mirror so babies can watch themselves make every face imaginable.

Baby's Very First Slide and See Unicorns Usborne Books
Provides images designed to stimulate development of the brain and eyesight in infants. On board pages.

Baby's Very First Slide and See Dinosaurs Bb Abrams

An engaging, interactive board book, specially designed for very young children, full of vivid colours, stylish illustrations and friendly night time scenes. Simple slider mechanisms allow a picture to be transformed, revealing badgers playing, bats flying high in the sky and a panda going to sleep. Little children will love moving the sliders and watching the magical scenes come to life. As well as the sliders, there are numerous die-cut holes and fingertrails, all different shapes and sizes, for children to explore too. Brilliant for developing essential motor skills and hand-eye coordination.
