How can we compete in today's fast-moving market? There are more platforms, more users and more content than ever before. How do we stand out? What can we do to make ourselves noticed, remembered and preferred? Content DNA provides the answers. By focusing on two key elements - consistency and congruence - you'll learn how to define a recognizable "shape" for your business. You'll discover the building blocks of your brand and get clarity on expressing your value through a short, memorable tagline. Finally, you'll understand how to create content that builds authority and establishes trust, based on the author's 10+ years of experience as an independent business writer and consultant. "John represents the cutting edge of content marketing reality." - Mark Schaefer "Content DNA provides the foundation and building blocks for creating great content." - Vicki O'Neil "Talk about relentlessly helpful! This is the content bible for anyone looking to build a business online." - Chloë Forbes-Kindlen *Century 21 Computer Keyboarding* Cengage Learning

Updated: June 2015. Author Peter Kahrel updated this Short Cut to cover InDesign CC. Several examples have been added, and most examples are now analysed in more detail. Updated: August 2010. Author Peter Kahrel updated this Short Cut to cover InDesign CS5. Updated: November 2009. Author Peter Kahrel updated this Short Cut to address typos and reader comments. GREP (short for "General Regular-Expression Print") is a powerful tool that lets you use wildcards ("jokers") to search and replace text. InDesign's GREP implementation can be used for text and also for formatting codes, finding patterns in text as well as literal text. GREP moves beyond the restrictions that hampered earlier InDesign search features, but unfortunately it does have the reputation of being difficult to master. As with many things, it can be challenging to learn, but, fortunately, a lot can be done with surprisingly simple expressions. The aim of this Short Cut is to show how to create simple but powerful regular expressions.
