## **TANYA RAMOS**

Avoir un garçon / avoir une fille, la liberté de choisir Fortune Network Publishing Inc.

This book examines the promises as well as the challenges the demographic dividend brings to sub-Saharan Africa as fertility rates in the region fall and the labor force grows. It offers a detailed analysis of what conditions must be met in order for the region to take full economic advantage of ongoing population dynamics. As the book makes clear, the region will need to accelerate reforms to cope with its demographic transition, in particular the decline of fertility. The continent will need to foster human capital formation through renewed efforts in the areas of education, health and employment. This will entail a true vision and determination on the part of African leaders and their development partners. The book will help readers to gain solid knowledge of the demographic trends and provide insights into socioeconomic policies that eventually might lead

sub-Saharan Africa into a successful future.

**Mon Suivi de FIV** SAGE Provides a pan-African synthesis of community-based natural resource management (CBNRM), drawing on multiple authors and a wide range of documented experiences from Southern, Eastern, Western and Central Africa. This title discusses the degree to which CBNRM has met poverty alleviation, economic development and nature conservation objectives. Global Nature, Global Culture Simon and Schuster Managing Breast Cancer Risk is a single source for information needed by primary care physicians, nurses, gynecologists, as well as oncologic specialists who deal with women who are concerned about breast cancer. Its purpose is to bring together a multidisciplinary group of experts to address breast cancer risk in a clinically meaningful way. Chapters providing detailed information on individual risk factors are accompanied by a discussion of models, which integrate multiple factors for a more complete assessment of risk. Traditional strategies

for risk management, including surveillance and prophylactic surgery, are reviewed, and the data on newer techniques such as ductal lavage and screening with magnetic resonance is presented. The rationale for chemoprevention with selective estrogen receptor modulators (SERMS) is discussed, and the evidence for tamoxifen as a chemopreventative is updated. The potential for chemoprevention with newer SERMS and the aromatase inhibitors is reviewed. Finally, the critical (and often ignored) areas of quality of life and symptom management are addressed.

*Pour la PMA* Columbia University Press

- Offers an in-depth experience of alchemical transmutation to cleanse old parts of the psyche and clear space for the shift to 5D through 9D consciousness
- Reveals the astrological factors at play behind the multitude of crises hitting the world stage in 2018, 2019, and 2020, including the Covid-19 pandemic
- Continues the story from Revelations of the Ruby Crystal and Revelations of the Aquarian Age With the Age of Aquarius dawning,

six friends connected by ancient wisdom, spiritual revelation, past lives, and sexual alchemy discover the connections between seemingly disconnected events--environmental collapse, schisms in the Catholic Church, the refugee crisis, political breakdown in the United States, the shift out of the age of oil to the high-tech economy, and the Covid-19 pandemic. The characters, as well as readers, experience moving out of fear-based consciousness to the higher dimensions. The story begins in Florence, Italy, at an art soirée in honor of Armando Pierleoni's visionary painting of Jesus and Mary Magdalene. In addition to the six friends--Armando, his photographer wife Jennifer, New York Times journalist Simon, his mystical wife Sarah, Jungian analyst Lorenzo, and exotically beautiful and astrologically insightful Claudia--the dinner party also includes Alessandro de Medici, later revealed to be a master alchemist, and the Jesuit priest Father Giorgio Faccini, the Vatican archivist and a covert agent for the Church's secret agenda. As the Aquarian vibrations intensify, Claudia sees the

astrological factors at play behind the multitude of crises hitting the world stage, and then Covid-19 hits Italy. In the rapidly escalating tension, the deepest fears and greatest joys of the characters' lives are revealed. Armando has a spiritual breakthrough and high initiation with Lorenzo in his tower, and the friends discover alchemical keys and the perennial wisdom--long suppressed by the Church--that will help humanity transcend.

"The many narratives of The Planetarium, told from various points of view, revolve around a seemingly simple conceit: a young man has his heart and ambition set on his aunt's large apartment. But, as in Sarraute's other books, this plot forms only the surface of what is really happening. Instead, Sarraute focuses on the emotional lives and internal thoughts of her characters in a way that goes beyond what Virginia Woolf did years before. The spite the young man feels toward his mother-in-law for offering him and his wife cheap chairs for their apartment; the terror inspired during a

confrontation between the same young man and his aunt; and the need for approval he feels when he's around his Gertrude Stein-like literary icon are some of the many internal conflicts that move the narrative forward through the minds of the conflicted and clashing characters. Always deeply engaging, *The Planetarium* uses a simple plot to reveal the disparity between the way we see ourselves and the way others see us."--  
 Publisher's website.

*Surrogacy* is India's new form of outsourcing, as couples from all over the world hire Indian women to bear their children for a fraction of the cost of surrogacy elsewhere with little to no government oversight or regulation. In the first detailed ethnography of India's surrogacy industry, Amrita Pande visits clinics and hostels and speaks with surrogates and their families, clients, doctors, brokers, and hostel matrons in order to shed light on this burgeoning business and the experiences of the laborers within it. From recruitment to training to delivery, Pande's research focuses on how

reproduction meets production in surrogacy and how this reflects characteristics of India's larger labor system. Pande's interviews prove surrogates are more than victims of disciplinary power, and she examines the strategies they deploy to retain control over their bodies and reproductive futures. While some women are coerced into the business by their families, others negotiate with clients and their clinics to gain access to technologies and networks otherwise closed to them. As surrogates, the women Pande meets get to know and make the most of advanced medical discoveries. They traverse borders and straddle relationships that test the boundaries of race, class, religion, and nationality. Those who focus on the inherent inequalities of India's surrogacy industry believe the practice should be either banned or strictly regulated. Pande instead advocates for a better understanding of this complex labor market, envisioning an international model of fair-trade surrogacy founded on openness and transparency in all business, medical, and emotional exchanges.

*Positive Parenting for Those Important Teen Years* Adolescence is often a time of great stress and turmoil—not only for kids going through it, but for you, their parents as well. During the teen years, kids aggressively begin to explore a new sense of freedom, which often leads to feelings of resentment and powerlessness for parents who increasingly are excluded from their children's lives. This revised edition of *Positive Discipline for Teenagers* shows you how to break the destructive cycle of guilt and blame and work toward greater understanding and communication with your adolescents. Inside, you'll:

- Find out how to encourage your teen and yourself
- Grow to understand how your teen still needs you, but in different ways
- Learn how to get to know who your teen really is
- Discover how to develop sound judgment without being judgmental
- Learn how to use follow-through—the only surefire way to get chores done

Over the years, millions of parents have come to trust the classic *Positive Discipline*

series for its consistent, commonsense approach to child rearing. Inside, you'll discover proven, effective methods for working with your teens. Over 1 million Positive Discipline books sold! "I highly recommend this book to parents, teachers, and all others who work with young people. It is one of the best books I have seen on helping adults and adolescents turn their conflict into friendship. Remarkably, it shows how to accomplish this while helping young people develop courage, confidence, responsibility, cooperation, self-respect, and trust. I urge you to read it." —H. Stephen Glenn, Ph.D., coauthor of *Raising Self-Reliant Children in a Self-Indulgent World*.

*Mon Suivi de FIV* IIED  
 Shares new documents to expose the sinister alien influence in world governments, financial systems, and scientific institutions throughout history • Shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens authority to abduct humans for "research" • Reveals how Reptilian-influenced ex-Nazis infiltrated the U.S. government • Explains how the Reptilians have created alien-human hybrids under their control to replace the human population Long ago, the Galactic Federation sent the Atlans, a fierce group of humans from the

Pleiades, to Earth to confront the newest colony of the combative ever-spreading alien race known as the Reptilians. The ensuing battle sank the continent of Lemuria and drove the Reptilians underground beneath the Indian subcontinent as well as to Antarctica. Able to shapeshift to appear human, the Reptilians then infiltrated the Atlantean civilization, abducting humans and creating Reptilian hybrids. As Len Kasten shows, this technique of infiltration and hybridization prior to an all-out attack has been the hallmark of Reptilian conquest throughout the galaxy. Chronicling the history of the Reptilian Empire's influence on Earth and their conquest of 21 star systems, Kasten reveals how the human race is enmeshed in a skillfully concealed plot to enslave humanity and exploit our planet's physical and biological resources. Revealing Hitler's pact with extraterrestrials and the Reptilian influence on the Nazi state, he shares new documents that disclose the rescue and rehabilitation of Nazi war criminals to assist in the Cold War, which then corrupted many U.S. government institutions.

Focusing on crucial events in the decade after World War II, he examines the Reptilians' human allies, the Illuminati, who control the levers of financial, technological, and military power throughout the world through various secret societies. He shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens permission to take humans up to their spaceships, ostensibly for genetic study--in return for alien technology--and how these abductions led to the creation of a hybrid race under Reptilian mind control. He also explains how Kennedy was assassinated by the CIA because of his plans to rout out this Nazi-Reptilian presence. Contrasting the Reptilians with the benevolent Ebens, the aliens from Zeta Reticuli who crashed at Roswell, Kasten exposes the stealthy tactics of the Reptilians, their relationship with the Greys, and their advanced genetic bio-technology and teleportation abilities--as well as what we need to do to defeat their plans.

### **Managing Breast**

**Cancer Risk** Routledge  
« En trente ans, les possibilités de la PMA se

sont développées au-delà de ce qu'avaient pu imaginer les pionniers de ce domaine. En marge de la majorité des demandes, provenant de couples stériles, d'autres ont vu le jour, plus contestées : celles des femmes homosexuelles et des femmes seules, qui souhaitent bénéficier de l'insémination avec donneur de sperme, ou encore congeler leurs ovocytes pour plus tard. C'est l'exaspération devant certains leaders d'opinions, politiques, philosophes, psychanalystes hostiles à la PMA - qui entendent réguler la vie des autres en brossant un portrait caricatural des candidates aux nouvelles formes de procréation et des risques pour leurs enfants - qui m'a donné envie de rapporter les faits, rien que les faits. Il est temps que la France, très en retard sur de nombreux autres pays, se mette au diapason de l'évolution de la société, du couple et de la famille, et accepte ces nouveaux modes de procréation. Car le développement harmonieux de ces enfants dépend aussi de la façon dont ils seront accueillis dans notre société. Il est temps d'arrêter d'imposer aux

femmes de courir l'Europe pour bénéficier de ce qu'on leur refuse dans leur pays d'origine, au prix d'un stress démultiplié et d'une sélection par l'argent inacceptable. Faisons place enfin à une valeur fondamentale de toute démocratie digne de ce nom : la tolérance. C'est la souffrance de ces femmes que je rencontre et que j'essaie d'aider qui m'amène à crier haut et fort à tous ces opposants à la procréation moderne : ça suffit, foutez leur la paix ! »

**Community Management of Natural Resources in Africa** Macmillan

The Handbook of the Sociology of Health, Illness & Healing advances the understanding of medical sociology by identifying the most important contemporary challenges to the field and suggesting directions for future inquiry. The editors provide a blueprint for guiding research and teaching agendas for the first quarter of the 21st century. In a series of essays, this volume offers a systematic view of the critical questions that face our understanding of the role of social forces in health, illness and healing. It also provides an overall theoretical framework and asks medical sociologists to consider the implications of taking on new directions and approaches. Such issues may include the importance of multiple levels of influences, the utility of dynamic, life course approaches, the role of culture, the impact of social networks, the

importance of fundamental causes approaches, and the influences of state structures and policy making.

Bien des gens ont du mal à se concentrer sur le bon genre de pouvoir de pensée pour prendre contact avec leurs anges. Les tracas de la vie quotidienne prennent le dessus, ils se sentent mal à l'aise et incertains d'eux-mêmes, ils ont peur que tout cela ne soit que dans leur tête, et leur cerveau a besoin d'une approche plus logique et structurée pour réussir. Si seulement ils pouvaient envoyer un texto ou un courriel à leur ange! Évidemment, c'est impossible, mais il existe d'autres façons de faire pour rendre ce processus plus facile et plus gratifiant. Couvrant un mois à la fois, l'« Agenda des Anges » vous offre une stratégie à suivre et souligne les informations dont vous aurez besoin pour dompter votre cerveau moderne centré à gauche et trouver une façon bien réelle et durable de prendre contact avec les anges.

Effrayé ? Mains moites ?  
Aucune idée des mots à utiliser ?  
Peur de la réaction des autres ?  
Pourquoi est-ce que nous évitons de prendre des rendez-vous ?  
Serais-ce notre image de soi qui chuchote : « Ne prend pas ce risque. »  
La motivation ne suffira pas à résoudre

ce défi de taille. Notre esprit trouvera toujours une bonne excuse pour ne pas se lancer dans la prise de rendez-vous. Notre recruteur nous rabat les oreilles avec des principes tels que : « Affronte ta peur, et ta peur se dissipera. » Ce qui semble, en théorie, plutôt logique et facile. Mais en pratique ? C'est une toute autre histoire. La prise de rendez-vous est une activité cruciale en marketing relationnel. On doit donc résoudre ce problème. Il faut arriver à rendre cette activité agréable, pour qu'ensuite nos cerveaux travaillent pour nous et non à contresens. Comment transformer la prise de rendez-vous en activité plaisante ? On apprendra d'abord à en faire une passion, un moment qu'on anticipe avec enthousiasme. Ensuite, on découvrira quels sont les mots exacts à utiliser pour éviter le rejet et réduire la tension chez nos prospects. Soyons réalistes. Personne ne souhaite devenir un vendeur à pression désagréable. On préfère être perçus comme une bouffée d'air frais dans la vie des autres. C'est possible d'y arriver en suivant certains principes tels que : demeurer

concis, aller droit au but, concentrer notre attention sur notre prospect, et présenter notre offre comme une option pour améliorer leurs vies. Terminé la peur. Et la culpabilité ? C'est du passé. L'heure est venue de transformer nos sentiments négatifs envers la prise de rendez-vous en momentum pour obtenir, vite fait bien fait, des tonnes de rendez-vous. On désire apprécier chaque moment dans le développement de notre entreprise de marketing relationnel. Décrocher davantage de rendez-vous maintenant. Commandez votre copie sur le champ.

*The J. Paul Getty Museum Journal* Rosenfeld Media  
The J. Paul Getty Museum Journal 10 is a compendium of articles and notes pertaining to the Museum's permanent collections of antiquities, paintings, and sculpture and works of art. Conservation problems will be discussed along with the articles written by Laurie Rusco, Elisabeth

Mention, Burton B. Fredericksen, John Fletcher, Thomas Kren, Gillian Wilson, Adrian Sassoon, Jiří Frel, Sheldon Nodelman, Jean-Paul Boucher, Mario A. Del Chiaro, Stéphanie Boucher, Jean-Louis Zimmermann, Patricia Tuttle, Anje Krug, Arthur Houghton, Marit Jentoft-Nilsen, René Hodot, Susan Treggiari, Emilio Rodríguez-Almeida, and Andrea Rothe.

*Mon Suivi FIV* Duke University Press

The essays in *Relative Values* draw on new work in anthropology, science studies, gender theory, critical race studies, and postmodernism to offer a radical revisioning of kinship and kinship theory. Through a combination of vivid case studies and trenchant theoretical essays, the contributors—a group of internationally recognized scholars—examine both the history of kinship theory and its future, at once raising questions that have long occupied a central place within the discipline of anthropology and moving beyond them. Ideas about kinship are vital not only to understanding but also to forming many of the practices and innovations of contemporary society.

How do the cultural logics of contemporary biopolitics, commodification, and globalization intersect with kinship practices and theories? In what ways do kinship analogies inform scientific and clinical practices; and what happens to kinship when it is created in such unfamiliar sites as biogenetic labs, new reproductive technology clinics, and the computers of artificial life scientists? How does kinship constitute—and get constituted by—the relations of power that draw lines of hierarchy and equality, exclusion and inclusion, ambivalence and violence? The contributors assess the implications for kinship of such phenomena as blood transfusions, adoption across national borders, genetic support groups, photography, and the new reproductive technologies while ranging from rural China to mid-century Africa to contemporary Norway and the United States. Addressing these and other timely issues, *Relative Values* injects new life into one of anthropology's most important disciplinary traditions. Posing these and other timely

questions, *Relative Values* injects an important interdisciplinary curiosity into one of anthropology's most important disciplinary traditions.

Noted astrologer and spiritual teacher Barbara Hand Clow channels the voice of Satya, a Pleiadian goddess. Satya describes the huge cosmic drama taking place simultaneously in nine dimensions, with Earth as the chosen theater. The Pleiadians are a group of enlightened beings who believe that the end of the Mayan Calendar will signal a critical leap in human evolution; the Pleiadians will be there to guide us for that leap. This shift is the coming Age of Light, and the entry of our solar system into the Photon Band and the Age of Aquarius.
