The Autocar Motorbooks

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Jaguar E Type Veloce Publishing Ltd

Drawing on a wealth of knowledge and experience and a background of more than 1,000 magazine articles on the subject, engine control expert Jeff Hartman explains everything from the basics of engine management to the building of complicated project cars. Hartman has substantially updated the material from his 1993 MBI book Fuel Injection (0-879387-43-2) to address the incredible developments in automotive fuel injection technology from the past decade, including the multitude of import cars that are the subject of so much hot rodding today. Hartman's text is extremely detailed and logically arranged to help readers better understand this complex topic.

Popular Mechanics Veloce Publishing Ltd

There are many books about Triumph, but most of them concentrate on the glamorous twin-carburettor Bonneville and three-cylinder Trident. Alongside these headline grabbing bikes, Triumph built a whole series of single-carb machines that had all the style of their twin-carb cousins, but were not much slower, delivered better fuel consumption, and were easier to live with. Unlike the many books about Triumph's history, this one is a straightforward, practical guide to buying a Trophy or Tiger secondhand. In the Veloce Essential Buyer's Guide format, it delves into what these bikes are like to live with, and the values, advantages, and disadvantages of different models. Plus, of course, what to look for when buying one - including engine, transmission, frame, brakes, suspension, paint, chrome, and more.

Popular Science Lulu.com

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Readers who love fast cars will love this book, featuring many of the fastest, most powerful cars on the planet. They will meet the international "superstars" adored by car lovers the world over, sports cars from Ferrari, Lamborghini, BMW, Porsche, Jaguar, and more.

Jaguar/Daimler XJ6, XJ12 & Sovereign Pen and Sword Transport
Sir William Lyons enjoyed a seemingly unstoppable rise to fame and fortune in the motor industry, and the Jaguar brand that he introduced became world-famous. Yet it did not happen overnight. In the 1920s he was in Blackpool, styling motorcycle sidecars, and in the 1930s in Coventry developing the SS motor car, with the stand-alone Jaguar company not appearing until 1945. The company's success was aided by the amazing new XK engine of 1948, by motor racing success at Le Mans, and by the stunning styling of cars like the XK120, the Mk 2 saloons and the extraordinary E-Type. Graham Robson here explores the history of the Jaguar company and its many classic marques.

Motorbooks International

From Motorbooks' beautifully designed and illustrated Speed Read

series, Speed Read Supercar guides you through every aspect of these imagination-capturing, eye-widening, land-bound speed missiles. When Lamborghini unleashed its Miura on an unsuspecting world in 1966, it set off a high-performance arms race that continues to this day. Ferrari, Maserati, Jaguar, Porsche, and Lotus all accepted the challenge. Over the following five decades, numerous others stepped up, including stalwarts like Aston Martin, BMW, and Audi, as well as small-volume specialists such as Koenigsegg, Pagani, Noble, and Spyker. The result is a veritable smorgasbord of blazingly fast and delicious-looking land missiles available to anyone with several hundred thousand dollars to spare. Supercars are complex subjects that interest nearly everyone. Every part of a supercar represents myriad decisions informed by engineering, aesthetics, human interface, and emotion. Speed Read Supercar answers the hows and whys of these fantastic cars in sections divided by topic, offering an engaging review of history, engineering, design, key concepts, and key people. Each section ends with a glossary of related terms, and informational sidebars provide fun facts, historical tidbits, and mini-bios of key people in the supercar world. Sleek illustrations showcase the incredible designs. With Motorbooks' Speed Read series, become an instant expert in a range of fast-moving subjects, from Formula 1 racing to the Tour de France. Accessible language, compartmentalized sections, fact-filled sidebars, glossaries of key terms, and event timelines deliver quick access to insider knowledge. Their brightly colored covers, modern design, pop art-inspired illustrations, and handy size make them perfect on-the-go reads.

Auction Prices Across the Nation Veloce Publishing Ltd

Oulton Park in the late 1960s was one of the last circuits to play host to non-championship Formula 1 races. Set in beautiful Cheshire parkland, it has always been a favorite with drivers who relish its challenging curves and with spectators who could watch their heroes compete on a true road circuit. Drivers such as Jim Clark, Jackie Stewart, Graham Hill, Surtees, Rindt and Brabham came to Oulton for the Gold Cup and spectators could see and even meet them in the open paddock atmosphere of the time. Major sports & GT races such as the RAC TT were also on the

Oulton Park calendar with Lola T70s, GT40s, Ferraris, Lotii and, of course, Chevrons in the hands of Hulme, Redman, Bonnier and other top drivers. Club race meetings provided variety and plenty of action with the VSCC's Seaman Trophies meeting for vintage and historic racers being the highlight of the season for many racegoers.

Jaguar E-type 6 & 12 Cylinder Restoration Guide Crowood

From horsepower to rare limited-edition models, Sports Illustrated for Kids writer Michael Bradley brings the world of cars to readers' fingertips. Anyone who is interested in cars will find this series fascinating and informative. Each highly illustrated title is chock-full of information about one cool car, including photos and text of the newest versions of that car, the history of that car, and the mechanical aspects of that car. Each title includes a spread with photos and statistics comparing the oldest and newest models. Full color photographs with informative captions enhance the text. The series also features a glossary, index, and further information section with Web sites.

Triumph Thunderbird, Trophy & Tiger Crowood

Four decades after its launch, the Jaguar E-type is still at the top of most car enthusiasts' Christmas lists. An enduring example of design and engineering excellence, it is instantly recognisable to people around the world. In production from 1961 to 1974, it was celebrated at the time as the most glamorous sports car of them all and is today one of the best-known icons of the '60s. If ever there was a deserving recipient of the title 'Great Car,' it's the classically elegant Jaguar E-type. In this fascinating, extensively illustrated book, Nigel Thorley describes the year by year history and development of the Jaguar E-Type, including anecdotes and curiosities along the way. Together with a sumptuous collection of colour photographs, this adds up to a feast of nostalgia that will delight all admirers of this most sinuous of cats.

Buying a car is an expensive business and mistakes can prove costly financially and in time, effort and stress. Wouldn't it be great if you could take an expert with you? With the aid of this book's step-by-step guidance from a marque specialist, you can! You'll discover all you need to know about the car you want to buy. By giving their fabulous E-type the incredible new V12 engine, Jaguar succeeded in grabbing the headlines once more, with an unsurpassed combination of performance and style at an unbeatable price that simply blew the opposition away. Thirty years later, the Series 3 E-type can still turn heads like no other and this book seeks to demystify these legendary cars and make them accessible to buyers who until now might have assumed such a car was beyond their practical or financial means. Working step-by-step through the car's strengths and weaknesses you'll avoid buying a lemon and join the ranks of film stars and others who have sampled the delight of V12 E-type motoring. Nothing else comes close. This book's unique points system will help you to place the car's value in relation to condition whilst extensive photographs illustrate the problems to look out for. This is an important investment - don't buy a V12 E Type without this book's help. STOP! Don't buy a V12 E-Type without buying this book first!

Jaguar E Type Motorbooks International

The Lotus Elan was Lotus's definitive roadster. It replaced the elegant but expensive Lotus Elite and was the first car to employ the innovative Lotus steel backbone chassis. The original Elan was produced as a two-seat, open-top sports car and hardtop coupe from 1962 to 1973. The range was extended by the addition of the 2+2-seater Plus 2 from 1967 to 1974. Lotus introduced an all-new front wheel drive Elan in 1989, the M100, which was produced until 1995. Lotus Elan studies the history and development of all the Elans and describes each model in detail. It gives technical details for all models, examines unusual conversions, and includes driving experiences from Elan owners. A complete and readable resource for all Lotus Elan owners and motoring enthusiasts who aspire to own one of these iconic British sports cars. Superbly illustrated with 250 colour photographs. Matthew Vale is a motoring author and passionate Lotus Elan enthusiast.
