 The Porsche 911's little brother... In 1969 a very special sports car was born. The 914 rose from a marriage of convenience of Volkswagen and Porsche, because both companies wanted a small, modern and affordable sports car in their product range, but for little cost. Thus, it was decided to combine the skills of both manufacturers. The result was a light mid-engine sports car with a lively road performance and even 50 years after its launch, it pleases the eye with a fresh design. Back then it was often ridiculed as a 'housewife Porsche' or 'Volks-Porsche',

but now, the 914 has come out of the shadow of its big brother the 911 and has a huge fan base; today it lives on in the Boxster and Cayman models. This volume includes: the result of thorough research in the Porsche and VW archives; rich photography; all technical data; development, production, model history and racing appearances.

 Richard Long is one of the leading protagonists of Land Art. He uses the movement of his own body, hiking and walking through the landscape as a criterion and medium for his art. He has been creating outside works for more than 40 years all over the world, In England, Canada, Japan or Bolivia: large stone circles or lines made of wood. Photographs document these transient works. But right from the beginning the artist has also

designed works For The museum space. Here as well, sculptures are created with archetypical forms, made of wood or stone: ellipses, lines or circles. The centre and inspiration for this exhibition at the Hamburger Bahnhof is the eponymous work Berlin Circle. The circle of stone, twelve metres in diameter, laid out on the floor is an important work in the Sammlung Marx and was first unveiled and installed by the artist For The opening of the Hamburger Bahnhof in 1996. 'My art is in the nature of things', Long says, referring To The actuality of his works, which as consequent settings of locations on which the nature of things appears in the work, also illustrate questions of the contemporary discourse concerning relationality, performativity, crossing borders And The spatiality of art. Bruce Springsteen - Like a Killer in the Sun, originally published in Italian, is the definitive book on the work of Bruce Springsteen, showing his unique narrative talent and offering an accurate critical examination of his poetics. It presents 117 among his best lyrics, expounded and annotated with the philological care used for the classics of literature. In his introduction, Leonardo Colombati draws the attention to the fact that Springsteen is an author grafted on the line that goes from Whitman to Steinbeck, from Flannery O'Connor to Raymond Carver. The book also contains Springsteen's biography and discography, plus an exclusive interview with Bruce Springsteen. With forewords by Academy Award-winner Ennio Morricone and music critic Dave Marsh, a committee member of the Rock and Roll Hall of Fame and Springsteen's biographer. Like a Killer in the Sun is a book for anyone who wants to listen to a powerful and inspired voice coming from the heart of America.

National Geographic Brett Cottrell After his last book *Escapes*, Stefan Bogner returns to the Alps again with this illustrated book. This time not only did he photograph particular routes, but he looked for the ideal tour through the Alps: 3 countries, 14 passes - the perfect little escape for 4 days. Different from Bogner's photographs in *Escapes* or *Curves*, where Bogner just presents dreamlike empty streets, *Porsche Drive* focuses on the journey in Porsche models such as Porsche 906, Porsche 911, Porsche 918 and more. Stefan Bogner drives his own Porsche 911 1970 ST. Apart from Bogner's photographs, *Porsche Drive* offers information on each route and height profile. Thus you can follow Bogner's itinerary on a long weekend. Text in English and German.

A town that doesn't want to be found. A

countess who rules over the memories of an entire community. A hole in the earth that threatens to drag them all into its depths. When her parents die in a car accident, the highly talented physicist Ruth Schwarz is confronted with an almost intractable problem. Her parents' will calls for them to be buried in their childhood home--but for strangers, Gross-Einland is a village that remains stubbornly hidden from view. When Ruth finally finds her way there, she makes a disturbing discovery: beneath the town lies a vast cavern that seems to exert a strange control over the lives of the villagers. There are hidden clues about the hole everywhere, but nobody wants to talk about it--not even when it becomes clear that the stability of the entire town is in jeopardy. Is this silence controlled by the charming countess who rules the community? And what role does Ruth's family history, a history she is only just beginning to uncover, have to play? The more questions Ruth asks, the more vehement the resistance she encounters from the residents. But as she continues to dig deeper, she comes to realize that the key to deciphering the mysterious codes of the people of Gross-Einland can only lie in the history of the hole. In the literary tradition of Thomas Bernhard and Elfriede Jelinek, Raphaela Edelbauer weaves the complexities of small-town social structures into an opaque dream fabric that is frighteningly true to life, and in the process she turns us towards the abject horror that lies beneath repressed memory. *The Liquid Land* is a dangerous novel, at once glittering nightmare and dark reality, from an extraordinary new literary voice.

Thanks to Oktoberfest and the popularity of beer gardens, our thoughts on German food are usually relegated to beer, sausage, pretzels, and limburger cheese. But the inhabitants of modern-day Germany do not live exclusively on bratwurst. Defying popular perception of the meat and potatoes diet, Ursula Heinzelmann's *Beyond Bratwurst* delves into the history of German cuisine and reveals the country's long history of culinary innovation. Surveying the many traditions that make up German food today, Heinzelmann shows that regional variations of the country's food have not only been marked by geographic and climatic differences between north and south, but also by Germany's political, cultural, and socioeconomic history. She explores the nineteenth century's back-to-the-land movement, which called for people to grow food on their own land for themselves and others, as well as the development of modern mass-market products, rationing and shortages under the Nazis, postwar hunger, and divisions between the East and West. Throughout, she illustrates how Germans have been receptive to influences from the countries around them and frequently reinvented their cuisine, developing a food culture with remarkable flexibility. Telling the story of beer, stollen, rye bread, lebkuchen, and other German favorites, the recipe-packed *Beyond Bratwurst* will find a place on the shelves of food historians, chefs, and spätzle lovers alike. *Stefan Zweig* Backbeat Books
The Girl Reading a Letter at an Open Window by Johannes Vermeer is one of the most famous works of seventeenth-century Dutch art. Preserved at the

Gemaldegalerie Alte Meister in Dresden, the painting has been restored, in an elaborate process lasting from 2017 to 2021. The removal of a large section of overpainting dating from a later period has profoundly altered the work's appearance and revealed the original composition. To

showcase the discovery, the Dresden Gemaldegalerie is now presenting the Girl Reading a Letter along with other masterpieces by Vermeer and a selection of exceptional Dutch genre paintings that reveal parallels and reciprocities between the art of Vermeer and that of his peers. This catalog brings together texts by

renowned scholars as they explore not only the restoration of this pivotal work but also fundamental questions on the visual vernacular and essence of Vermeer's painting, his optical realism, his iconography of love, and the lived realities of women in the Dutch Golden Age.
