The WISC-IV is a standardized test that is often administered to children ranging from 6-16 years of age. This exam measures students' abilities in areas such as abstract thinking, reasoning, mathematical knowledge, working memory, language, categorization, and processing speed. The full WISC IV consists of 15 different subtests and is commonly used as an admissions requirement for private schools or as an eligibility tool for gifted and talented programs. In New York City, children must take an abbreviated

version of the WISC IV (10 subtests are administered instead of the full 15) that is administered by the Educational Records Bureau (ERB) if applying for entry to grades 2-4 at most private schools. This particular workbook set is inclusive of the 10 major subtests that are administered in New York City by the ERB. Furthermore, the workbooks offer detailed descriptions of the additional 5 subtests that are administered for the full WISC-IV, as well as examples of each of the types of 5 subtest questions. The WISC-IV workbooks help families understand the content on all 15 subtests of the WISC-IV, as well as provide ample practice questions for the 10 specific subtests that are administered by the ERB in NYC, which will help children feel confidently prepared for the exam. These workbooks also provide:

- * Details about the test, such as how it is administered and scored.
- * 9 bi-colored blocks.
- * 50 practice questions for each of the 10 subtests that are administered by the ERB in NYC, structured and presented in a way that is similar to the WISC-IV.
- * Details and examples of the additional

5 subtests that are administered as a part of the full WISC-IV test.* Challenging levels of difficulty that are appropriate for children up to 16 years of age.* Suggested activities to help children build the skills necessary to be successful on the exam.* 80 monster stickers to encourage persistence and promote learning through play.
