Un vieil égyptologue vient d'être assassiné dans d'étranges conditions : à ses côtés, une page blanche parfumée d'une odeur de menthe, une drôle de fléchette et un chat noir qui rôde... Un garçon surdoué et pourvu d'une mémoire extraordinaire aide son père, Victor, inspecteur de police, à élucider le meurtre. Au commissariat, l'enquête est au point mort et la consternation, générale. Bien heureusement, un mystérieux informateur au service de la

police, est là pour donner de précieux indices et mettre l'inspecteur Victor sur la piste... Outre les déboires des enquêteurs officiels, l'histoire aborde aussi les relations parfois épineuses entre un père (Victor) et son fils (Vincent), qui se révéleront pourtant complémentaires dans la résolution de l'intrigue. Un livre au suspense haletant, agrémenté de multiples rebondissements qu'il faut suivre assidûment ! Un roman policier bien construit pour les lecteurs dès 9 ans, qui s'est vendu à plus de 65 000 ex depuis sa première parution (1997).

THE following work has been prepared by authority of the Supreme Council of the Thirty-third Degree, for the Southern Jurisdiction of the United States, by the

Grand Commander, and is now published by its direction. It contains the Lectures of the Ancient and Accepted Scottish Rite in that jurisdiction, and is specially intended to be read and studied by the Brethren of that obedience, in connection with the Rituals of the Degrees. It is hoped and expected that each will furnish himself with a copy, and make himself familiar with it; for which purpose, as the cost of the work consists entirely in the printing and binding, it will be furnished at a price as moderate as possible. No individual will receive pecuniary profit from it, except the agents for its sale. It has been copyrighted, to prevent its republication elsewhere, and the copyright, like those of all the other works prepared for the Supreme Council, has been assigned to

Trustees for that Body. Whatever profits may accrue from it will be devoted to purposes of charity. The Brethren of the Rite in the United States and Canada will be afforded the opportunity to purchase it, nor is it forbidden that other Masons shall; but they will not be solicited to do so. In preparing this work, the Grand Commander has been about equally and Compiler; since he has extracted quite half its contents from the works of the best writers and most philosophic or eloquent thinkers. Perhaps it would have been better and more acceptable if he had extracted more and written less. Still, perhaps half of it is his own; and, in incorporating here the thoughts and words of others, he has continually changed and added to the language, often intermingling, in the same

sentences, his own words with theirs. It not being intended for the world at large, he has felt at liberty to make, from all accessible sources, a Compendium of the Morals and Dogma of the Rite, to remould sentences, change and add to words and phrases, combine them with his own, and use them as if they were his own, to be dealt with at his pleasure and so availed of as to make the whole most valuable for the purposes intended. He claims, therefore, little of the merit of authorship, and has not cared to distinguish his own from that which he has taken from other sources, being quite willing that every portion of the book, in turn, may be regarded as borrowed from some old and better writer. The teachings of these Readings are not sacramental, so far as they go

beyond the realm of Morality into those of other domains of Thought and Truth. The Ancient and Accepted Scottish Rite uses the word "Dogma" in its true sense, of doctrine, or teaching; and is not dogmatic in the odious sense of that term. Every one is entirely free to reject and dissent from whatsoever herein may seem to him to be untrue or unsound. It is only required of him that he shall weigh what is taught, and give it fair hearing and unprejudiced judgment. Of course, the ancient theosophic and philosophic speculations are not embodied as part of the doctrines of the Rite; but because it is of interest and profit to know what the Ancient Intellect thought upon these subjects, and because nothing so conclusively proves the radical difference between our

human and the animal nature, as the capacity of the human mind to entertain such speculations in regard to itself and the Deity.

### *Hermetica II Gateway*

Volume two reveals the extraordinary diversity of ancient Roman religion. A comprehensive sourcebook, it presents a wide range of documents illustrating religious life in the Roman world - from the foundations of the city in the eighth century BC to the Christian capital more than a thousand years later. Each document is given a full introduction, explanatory notes and bibliography, and acts as a starting point for further discussion. Through paintings, sculptures, coins and inscriptions, as well as literary texts in translation, the book explores the major themes and problems

of Roman religion, such as sacrifice, the religious calendar, divination, ritual, and priesthood. Starting from the archaeological traces of the earliest cults of the city, it finishes with a series of texts in which Roman authors themselves reflect on the nature of their own religion, its history, even its funny side. Judaism and Christianity are given full coverage, as important elements in the religious world of the Roman empire.

Why, when we have been largely socialized into good behavior, are there more laws that govern our behavior than ever before? Levels of violent crime have been in a steady decline for centuries-- for millennia, even. Over the past five hundred years, homicide rates have

decreased a hundred-fold. We live in a time that is more orderly and peaceful than ever before in human history. Why, then, does fear of crime dominate modern politics? Why, when we have been largely socialized into good behavior, are there more laws that govern our behavior than ever before? In *Command and Persuade*, Peter Baldwin examines the evolution of the state's role in crime and punishment over three thousand years. Baldwin explains that the involvement of the state in law enforcement and crime prevention is relatively recent. In ancient Greece, those struck by lightning were assumed to have been punished by Zeus. In the Hebrew Bible, God was judge, jury, and prosecutor when Cain killed Abel. As the state's power as lawgiver grew, more

laws governed behavior than ever before; the sum total of prohibited behavior has grown continuously. At the same time, as family, community, and church exerted their influences, we have become better behaved and more law-abiding. Even as the state stands as the socializer of last resort, it also defines through law the terrain on which we are schooled into acceptable behavior.

Ce parcours de lecture est destiné à accompagner les élèves dans leur découverte du roman de Didier Convard. Il est centré sur la manipulation du temps dans le récit policier : comprendre comment l'auteur construit et exploite le mystère pour engager le lecteur dans l'enquête tout en préservant le secret de l'énigme, - prendre conscience du jeu entre les différents axes temporels, une des caractéristiques majeures du récit policier. Il propose des démarches variées (lecture-puzzle, activités d'écriture, questionnaire...), des fiches pédagogiques pour réaliser les séquences, des outils utiles aux élèves ainsi que des fiches de corrigés et des fiches de synthèse nécessaires au maître. Un archéologue qui a participé

trente ans plutôt à des fouilles en Egypte est assassiné sans raison apparente. Puis, un second archéologue est à son tour victime d'un meurtre. Quentin, un adolescent surdoué dont le père est inspecteur de police se lance aussitôt sur la piste du criminel. L'enquête entraîne le lecteur dans la préhistoire du crime, sur le chantier des fouilles de Deir El Médineh. Il découvre alors qu'un des savants y est mort à cause de la lâcheté de ses compagnons et que l'un d'eux a usurpé son identité. Le meurtrier qui n'est autre que le frère de ce mort poussé au crime par la soif de vengeance.

Antoine Deslambres, enquêteur spécialisé dans la lutte contre les sectes, est dépêché sur la scène du crime. Il y retrouve son ancien mentor, Sormand, qu'il tient pour responsable du drame qui l'a séparé de Claire, son amour de jeunesse. Or la jeune femme est également de retour à Toulouse: tous trois vont-ils revivre des événements aussi tragiques que ceux qui les ont

déchirés quinze ans auparavant?

Drawing from a rich corpus of art works, including sarcophagi, tomb paintings, and floor mosaics, Patrick R. Crowley investigates how something as insubstantial as a ghost could be made visible through the material grit of stone and paint. In this fresh and wide-ranging

study, he uses the figure of the ghost to offer a new understanding of the status of the image in Roman art and visual culture. Tracing the shifting practices and debates in antiquity about the nature of vision and representation, Crowley shows how images of ghosts make visible structures of beholding and strategies of depiction. Yet the figure of the ghost simultaneously contributes to a broader conceptual history that accounts for how modalities of belief emerged and developed in antiquity. Neither illustrations of ancient beliefs in ghosts nor depictions of afterlife, these images show us something about the visual event of seeing itself. The Phantom Image offers essential insight into ancient art, visual culture, and the history of the image.
