The European maritime explorers who first visited the bays and beaches of Australia brought with them diverse assumptions about the inhabitants of the country, most of them based on sketchy or non-existent knowledge, contemporary theories like the idea of the noble savage, and an automatic belief in the superiority of European civilisation. Mutual misunderstanding was almost universal, whether it resulted in violence or apparently friendly transactions. Written for a general audience, *The First Wave* brings together a variety of contributions from thought-provoking writers, including both original research and creative work. Our contributors explore the dynamics of these early encounters, from Indigenous cosmological perspectives and European history of ideas, from representations in art and literature to the role of animals, food and fire in mediating first contact encounters, and Indigenous agency in exploration and shipwrecks. *The First Wave* includes poetry by Yankunytjatjara Aboriginal poet Ali Cobby Eckermann, fiction by Miles Franklin award-winning Noongar author Kim Scott and Danielle Clode, and an account of the arrival of Christian missionaries in the Torres Strait Islands by Torres Strait political leader George Mye.

D'harawal Elsevier

A collection of true stories and folklore of the Aboriginal peoples of New South Wales. Originally brought together as a result of research undertaken on behalf of the Australian Folk Trust, the stories in this volume range from the autobiographical to the fantastic. They provide not only an entertaining read but also insight into aspects of Aboriginal culture.

Handbook of Research on Children's and Young Adult Literature Routledge

"This is the first full-length study of South African English youth literature to cover the entire period of its publication, from the late nineteenth century to the early twenty-first century. What gives this book particular strength is its coverage of literature up to the 1960s, which has until now received almost no scholarly attention. Not only is this earlier literature a rewarding subject for study in itself, but it also throws light on subsequent literary developments. Jenkins also makes comparisons with American, Canadian and Australian children's literature. This book is essential reading for anyone seeking to understand children's literature in the context of adult South African literature and South African cultural history."--BOOK JACKET.

My Girragundji Hyland House Publishing

The troubled state of Aboriginal health in Australia is a seemingly perennial problem, despite ongoing research, policies and interventions. The second edition of this book examines the processes and practices behind this situation, and provides practical strategies to assist in addressing this complex subject.

The Oxford Encyclopedia of Children's Literature: Aamu-Duan National Library Australia

This multidisciplinary handbook pulls together in one volume the research on children's and young adult literature which is currently scattered across three intersecting disciplines: education, English, and library and information science.

Stolen, beaten, deprived of his liberty and used as child labour, Bill Simon's was not a normal childhood. He was told his mother didn't want him, and that he was the scum of the earth and was locked up in the notorious Kinchela Boys Home for eight years. His experiences there would shape his life forever. This title tells his story.

What is Sasquatch? Thousands of people believe in it. Hundreds say they have seen it. But the mystery of Sasquatch has not been solved . . . Sasquatch, also known as Bigfoot, is a cryptid—a creature of cryptozoology. Cryptozoology is the study of creatures not recognized by traditional science, and it is the quest to understand things that cannot be proven via ordinary channels. Kelly Milner Halls interviews cryptozoologists, linguistics experts, anthropologists, biologists, and regular people like us who have seen, heard, or maybe stumbled across evidence leading them to believe that Sasquatch is real. Serious Sasquatch seekers are as skeptical as unbelievers. They are not out to collect great stories. They are out to put together facts. The difference is, they are willing to keep an open mind. Do you believe in Sasquatch?

Routledge Handbook of International Law and the Humanities Routledge

Children's literature first became a distinct body of writing and publishing in the eighteenth century. Until the seventeenth century, children were usually considered as smaller versions of adults. As the notion of "childhood" as a distinct part of life emerged, a distinct body of literature emerged as well, designed both to entertain and edify this new class of readers. But for much of its history, books written for children were not seen as worthy of scholarly attention. Recently this has changed with everyone from literary critics, to psychologists, to anthropologists, to historians studying this incredibly rich outpouring. *The Oxford Encyclopedia of Children's Literature* is the first multi-volume set to document and interpret the books read by children in the English-speaking world. It includes brief biographies of every major author and illustrator, and features essays on all genres of children's literature, individual works, and prominent trends and themes, as well as general essays on the traditions of children's literature in many country in the world. ***A future Oxford Digital Reference Shelf title. Indigenous Australians have long understood sustainable hunting and harvesting, seasonal changes in flora and fauna, predator-prey relationships and imbalances, and seasonal fire management. Yet the extent of their knowledge and expertise has been largely unknown and underappreciated by non-Aboriginal colonists, especially in the south-east of Australia where Aboriginal culture was severely fractured. *Aboriginal Biocultural Knowledge in South-eastern Australia* is the first book to examine historical records from early colonists who interacted with south-eastern Australian Aboriginal communities and documented their understanding of the environment, natural resources such as water and plant and animal foods, medicine and other aspects of their material world. This book provides a compelling case for the importance of understanding Indigenous knowledge, to inform discussions around climate change, biodiversity, resource management, health and education. It will be a valuable reference for natural resource management agencies, academics in Indigenous studies and anyone interested in Aboriginal culture and knowledge.

You are what You Make Yourself to be Elsevier Australia

A collection of original stories written by some of the country's most celebrated Aboriginal writers, and inspired by pivotal events in the country's history. Inspired by history, *Our Story* is a beautifully illustrated collection of original stories from some of Canada's most celebrated Aboriginal writers.

Asked to explore seminal moments in Canadian history from an Aboriginal perspective, these ten acclaimed authors have travelled through our country's past to discover the moments that shaped our nation and its people. Drawing on their skills as gifted storytellers and the unique perspectives their heritage affords, the contributors to this collection offer wonderfully imaginative accounts of what it's like to participate in history. From a tale of Viking raiders to a story set during the Oka crisis, the authors tackle a wide range of issues and events, taking us into the unknown, while also bringing the familiar into sharper focus. Our Story brings together an impressive array of voices — Inuk, Cherokee, Ojibway, Cree, and Salish to name just a few — from across the country and across the spectrum of First Nations. These are the novelists, playwrights, journalists, activists, and artists whose work is both Aboriginal and uniquely Canadian. Brought together to explore and articulate their peoples' experience of our country's shared history, these authors' grace, insight, and humour help all Canadians understand the forces and experiences that have made us who we are. Does a hulking, hairy, 800-pound, nine-foot-tall, elusive primate roam the woods and forests throughout North America—and the world? What should we make of the grainy videos and photos and the thousands of eyewitness reports? Audio-recordings exist purporting to be the creatures' eerie chatter and bone-chilling screaming. Whether called Sasquatch, Yeti, Bigfoot, or something else, bipedal primates appear in folklore, legends, and eyewitness accounts in every state of the union and many places around the world. The fascination with the man-beast is stronger than ever in today's pop culture. Exploring the history, movies, and literature, the conspiracy theorizing, and the world of the supernatural, *The Encyclopedia of Sasquatch, Yeti and Cryptid Primates* is a comprehensive resource to the man-beast. With nearly 200 entries and 120 photographs, drawings, and illustrations, it is the definitive guide to understanding, hunting, and avoiding the brute, as well as discovering the facts behind the sightings and horrifying tales. It covers 400 years of folklore, mythology, history, and pop culture, including Native American lore, the "wild men" reports in the pages of 19th century-era American newspapers, Florida's Myakka Skunk Ape, Australia's Yowie, China's Yeren, Himalayas' Yeti, Russian expeditions, Harry and the Hendersons, *Exists* and the countless movies titled Bigfoot, as well as specials on the television shows Animal Planet, Discovery Channel and National Geographic Channel, scientific reports and findings, and much, much more. Various documentaries and reality television shows have all superficially tackled the subject, but Nick Redfern presents a truly encyclopedic look at cryptid primates. It is a richly researched reference, overflowing with fascinating information to make readers think—and reconsider their next camping trip.

The pieces in this seminal collection represent almost four decades of writing by historian and activist Jackie Huggins. These essays, speeches, and interviews combine both the public and the personal in a bold trajectory tracing one Murri woman's journey towards self-discovery and human understanding. As a widely respected cultural educator and analyst, Huggins offers an Aboriginal view of the history, values, and struggles of Indigenous people. *Sister Girl* reflects on many important and timely topics, including identity, activism, leadership, and reconciliation. It challenges accepted notions of the appropriateness of mainstream feminism in Aboriginal society and of white historians writing Indigenous history. Jackie Huggins' words, then and now, offer wisdom, urgency and hope.

A shadow, in its most literal sense, is the projection of a silhouette against a surface and the obstruction of direct light from hitting that surface. For writers and artists, the shadows cast by their

precursors can be either a welcome influence, one consciously evoked in textual production via homage or bricolage, or can manifest as an intrusive, haunting, prohibitive presence, one which threatens to engulf the successor. Many writers and artists are affected by an anxious and ambiguous relationship with their precursors, while others are energised by this relationship. The role that intertextuality plays in creative production invites interrogation, and this publication explores a range of conscious and unconscious influences informing relations between texts and contexts, between predecessors and successors. The chapters revolve around intertextual influence, ranging from conscious imitation and intentional allusion to Julia Kristeva's idea of intertextuality. Do all texts contain references to and even quotations from other texts? Do such references help shape how we read? This multidisciplinary work includes chapters on the long shadows cast by Shakespeare, Dante, Scott, Virgil and Ovid, the shadows of colonial precursors on postcolonial successors, the shadows cast over Kipling and Murdoch, and chapters on other writers, dramatists and filmmakers and their relationships with precursor figures. With its focus on intertextual relationships, this book contributes to the thriving fields of adaptation studies and studies of intertextuality.

Ontologies of Rock Art is the first publication to explore a wide range of ontological approaches to rock art interpretation, constituting the basis for groundbreaking studies on Indigenous knowledges, relational metaphysics, and rock imageries. The book contributes to the growing body of research on the ontology of images by focusing on five main topics: ontology as a theoretical framework; the development of new concepts and methods for an ontological approach to rock art; the examination of the relationships between ontology, images, and Indigenous knowledges; the development of relational models for the analysis of rock images; and the impact of ontological approaches on different rock art traditions across the world. Generating new avenues of research in ontological theory, political ontology, and rock art research, this collection will be relevant to archaeologists, anthropologists, and philosophers. In the context of an increasing interest in Indigenous ontologies, the volume will also be of interest to scholars in Indigenous studies.

Our Story Routledge

Spiritual beings are sent to earth to occupy a human body in order to experience life in a physical form. The human body you occupy comes with human instincts handed down from generational experiences from the Family history. Human instincts are controlling our behaviors as the spiritual being inside you is suppressed. The test you must pass in order to advance is to overcome your human instincts and allow your spiritual being to make your choices. This book will help you to improve or repair your relationships. Give meaning to your life. Help you connect to the One omnipotent power in the Universe. Let go of hate, anger, anxiety, depression. Understand your thoughts.
