 Life can be viewed as literally, poetry in motion, whether it relates to nature and its diverse components and characteristics, relationships, social activities and interactions, or simply meditating on the mysteries of creation, and the role we play in it. Poetic Reverence touches on all these aspects and then some. It creatively and potently puts God and Christ, in the center of it all, with the intention to encourage, rejuvenate, uplift, and intrigue the reader. It will certainly challenge how we all perceive and cope with life's challenges, and sheds light on our divine purpose.

 "When we took that first step onto Pomonan soil, we thought we'd succeeded in our mission of peace. Little did we know that experiment was just beginning. And that we had a long, rough road to travel yet." Four hundred years have passed since the arrival of the Migrants on the planet of Pomona, and the young colony has already endured generations upon generations of violence. The democratic Federation, born from the ashes of a broken government, has now been dissolved, overcome by the corrupt and fanatical Socialist Union. What began as an interstellar experiment of peace is now proof of humankind's unique genetic affinity for war. After decades of Union domination, Ari Kirche, a young Federation boy from seemingly insignificant origins, finds himself in a land he was never supposed to know about. In an accidental twist of fate, he discovers a secret from the past that is sure to ignite the flames of war once more. Revolution is in the air. Immerse yourself in a new world, written by Los Angeles local author J. C. Hammer. THE ALPINE INSURRECTION is built for fans of science fiction novels based in reality, such as The Martian (Ray Bradbury) or Leviathan Wakes (James Corey), but also for readers of dystopian young adult adventure novels, such as The Hunger Games (Suzanne Collins). On your journey across the planet of Pomona, you'll travel to unknown lands, discover untold secrets, and watch a nation get pushed to the edge of rebellion. Science fiction is only two syllables away from science. Become powered by discovery.

Mary Rosetta Parkman in the book "Heroes of To-Day" discusses the story of some of the great men doing wonderful things across society. Though not heroic as the days of the titans, wars, chariots, and events involving flesh and blood. She discusses the story of men like John Muir, Wilfred Grenfell, Captain Scott, etc. who are fighting in the "patient modern way."

General Horemheb has taken control after the death of Ay and Nakhtmin. Forcing Scarab to marry him, he ascends the throne of Egypt. The Two Kingdoms settle into an uneasy peace as Horemheb proceeds to stamp out all traces of the former kings. He also persecutes the Khabiru tribesmen who were reluctant to help him seize power. Scarab escapes into the desert, where she is content to wait until Egypt needs her. A holy man emerges from the desert and demands that Horemheb release the Khabiru so they may worship his god. Scarab recognises the holy man and supports him in his efforts to free his people. The gods of Egypt and of the Khabiru are invoked and disaster sweeps down on the Two Kingdoms as the Khabiru flee with Scarab and the holy man. Horemheb and his army pursue them to the shores of the Great Sea, where a natural event...or the very hand of God...alters the course of Egyptian history.

The first anthology of its kind, Manifesto features over two hundred artistic and cultural manifestos from a wide range of countries. The manifesto, a public statement that sets forth the tenets of a forthcoming, existing, or potential movement or "ism"?or that plays on the idea of one?became in various modernisms a crucial and forceful vehicle for artists, writers, and other intellectuals to express their ideas about the direction of

aesthetics and society. Included in this collection are texts ranging from Kurt Schwitters's Cow Manifesto to those written in the name of well-known movements?imagism, cubism, surrealism, symbolism, vorticism, projectivism?and less well-known ones?lettrism, acmeism, concretism, rayonism. Also covered are expressionist, Dada, and futurist movements from French, Italian, Russian, Spanish, and Latin American perspectives, as well as local movements, such as Brazilian hallucinism. Influential, startling, unsettling, amusing, and continually engaging, these modernist manifestos give voice to a fascinating array of ideas and opinions that will prove invaluable to scholars and students of nineteenth and twentieth-century art, literature, and culture.

This novel was self-published through Xlibris in 2019 and since then has been extensively marketed through several avenues and platforms headlined by book exhibitions and major book fairs around the world such as The Book Expo America (New York), Beijing, and Guadalajara Book Fairs and London next year (due to 2020 cancellation because of the virus). It has also been featured in Press Releases and my website (<http://www.ivan-molloy.org/>) . Moreover it has been favourably reviewed by The Clarion Review and The Kirkus Review. However, I am approaching you now as I am seeking a more traditional publisher. Simply put, this novel is a somewhat comical satire of the politics and history of our world and is suitable for all ages. The main character Hunkle Trotter (a pig), lives in Mudwallow in a far off pig world. War soon rages between the pigs of Mudwallow and Hamcorner, as the elite among the Wallowites, known as snouters, seek to expand their power and fortunes through military means. As the snouters' mercenary soldiers, the boars, and the Holy Pomponer, the head of the Wallowites' faith, hoard food and wealth during this time, it

is the weary, working-class trotters who go without. While the fight bogs down due to self-serving double-crosses and incompetent leaders, Hunkle finds himself in the role of an unlikely revolutionary. Meanwhile Hunkle's Cousin Crumpet has produced a series of writings on 'pigolitics' and 'pigolosophy' that demand equality and a rejection of snouter rule. Along with the vengeful rebel Snooper and Hunkle's son, Whiskers, Crumpet establishes the snotters, a group that rejects the strict class structure and the worship of the Pomponer's "Great One," a deity that supposedly blesses pigkind from the Black Mountain volcano. Unrest grows, and the snotters are able to gain advantages over the ruling upper classes through utilizing the prized badapple, a tree with explosive properties and technological possibilities, as well by taking advantage of the lies of the religious caste, by proving that the Great One is no god. Somewhat a cross between the Game of Thrones and Animal Farm, *Dealing With Pigs*, is filled with scheming bad pigs and harrowing battles. Ultimately the revolution is successful only to fall prey itself to dictatorship, new revolts and quests to find a better way. In what is Book One, there are parallels with our human contemporary global politics and history except for major twists and turns leading to Book Two (currently being written).

Set in Alabama in the 1960s, *Southern Crossfire* tells the story of a white Auburn University student, Duke, who becomes involved in the black voter registration project in nearby Tuskegee. Since he has several friends from Tuskegee, the project leaders convince him to use these relationships to supply information about the plans and activities of local Klansmen. As the story unfolds, Duke encounters many of the social issues that made the '60s such a tumultuous time—loosening sexual practices, drugs, abortion, interracial relationships, even a passing reference to homosexuality. The story has elements of intrigue and betrayal, violence and romance, philosophy and frivolity. Historical characters appear and lend realism to this fictional story—that just could have happened.

Willis examines the many orientations and perspectives of reporters that gather and present the news of the day. Debunking the notion that there are limited perspectives journalists may use, Willis examines up to 15 different orientations that reporters bring to their work. These perspectives run the gamut, from the traditional approach of distancing oneself completely from events and people involved to becoming part of the story's fabric to ascertain the story's true essence. Willis also suggests that, for many stories, it is wholly appropriate for journalists to feel what a non-professional would experience at such an event, and to allow those emotions to fuel the reporting and writing of the story. Several examples are discussed in detail, including the coverage of the bombing of the Alfred P. Murrah Federal Building in Oklahoma City on April 19, 1995, and the terrorist attacks of September 11, 2001.
