Neil Young is one of rock and roll's most important and enigmatic figures, a legend from the sixties who is still hugely influential today. He has never granted a writer access to his inner life - until now. Based on six years of interviews with more than three hundred of Young's associates, and on more than fifty hours of interviews with Young himself, Shakey is a fascinating, prodigious account of the singer's life and career. Jimmy McDonough follows Young from his childhood in Canada to his cofounding of Buffalo Springfield to the huge success of Crosby, Stills, Nash and Young to his comeback in the nineties. Filled with never-before-published words directly from the artist himself,

Shakey is an essential addition to the top shelf of rock biographies.

A legendary record producer and performer takes readers on an alphabetical journey of insights into the music of the Beatles and individual reminiscences of John, Paul, George, and Ringo. Peter Asher met the Beatles in the spring of 1963, the start of a lifelong association with the band and its members. He had a front-row seat as they elevated pop music into an art form, and he was present at the creation of some of the most iconic music of our times. Asher is also a talented musician in his own right, with a great ear for what was new and fresh. Once, when Paul McCartney wrote a song that John Lennon didn't think was right for the Beatles, Asher asked if he could record it. "A World Without Love" became a global No. 1 hit for his duo, Peter & Gordon. A few years later Asher was asked by Paul McCartney to help start Apple Records; the first artist Asher discovered and signed up was a young American singer-songwriter named James Taylor. Before long he would be not only managing and producing Taylor but also (having left Apple and moved to Los Angeles) working with Linda Ronstadt, Neil Diamond, Robin Williams, Joni Mitchell, and Cher, among others.

The Beatles from A to Zed grows out of his popular radio program "From Me to You" on SiriusXM's The Beatles Channel, where he shares memories and insights about the Fab Four and their music.

Here he weaves his reflections into a whimsical alphabetical journey that focuses not only on songs whose titles start with each letter, but also on recurrent themes in the Beatles' music, the instruments they played, the innovations they pioneered, the artists who influenced them, the key people in their lives, and the cultural events of the time. Few can match Peter Asher for his fresh and personal perspective on the Beatles. And no one is a more congenial and entertaining guide to their music.

Can't Help Falling in Love (Sheet Music) Hal Leonard Corporation

'Van Morrison,' says Greil Marcus, 'remains a singer who can be compared to no other in the history of modern popular music.' When Astral Weeks was released in 1968, it was largely ignored. When it was re-released as a live album in 2009 it reached the top of the Billboard charts, a first for any Van Morrison recording. The wild swings in the music, mirroring the swings in Morrison's success and in people's appreciation (or lack of it) of his music, make Van Morrison one of the most perplexing and mysterious figures in popular modern music, and a perfect subject for the wise and insightful scrutiny of Greil Marcus, one of America's most dedicated cultural critics. This book is Marcus's quest to understand Van Morrison's particular genius through the extraordinary and unclassifiable moments in his long career, beginning in 1965 and continuing in full force to this day. In these dislocations Marcus finds the singer on his own artistic quest precisely to reach some extreme musical threshold, the moments that are not enclosed by the will or the intention of the performer but which somehow emerge at the limits of the musician and his song.
