'Lush,

powerful ...an engrossing novel of female survival.' Bookseller + Publisher A young girl loses both her parents in a tragic event, and is taken to live with her grandmother on a flower farm. Growing up, Alice learns the language of Australian native flowers as a way to say the things that are too hard to speak. But she also learns that there are secrets within secrets about her past. An

unexpected betrayal leaves her reeling, and she escapes to try to make her own - sometimes painful - way through the world, and to find her story. The Lost Flowers of Alice Hart is a story about stories: those we inherit, those we select to define us, and those we decide to hide. It is a novel about the secrets we keep and how they haunt us, and the stories we tell ourselves in order to

survive. Spanning twenty years, and set between sugar cane fields by the sea, a native Australian flower farm and a celestial crater in the central desert, The Lost Flowers of Alice Hart follows the life of Alice as she discovers that the most powerful story she will ever possess is her own. European/Supra-European: Cultural Encounters in Nietzsche's Philosophy Penguin Alchemical

symbols are part of popular culture, most recently popularised in the Harry Potter books. Alchemy intrigued Carl Jung, the founder of analytical psychology. It inspired him as he wrote 'the Red Book' - the journal of his voyage of internal discovery. He devoted much of his life to it, using alchemical symbols as metaphors for unconscious processes. Alchemy and Psychotherapy explores the

issue of alchemy in the consulting room and its application to social and political issues. This book argues against the dominant discourse in contemporary psychotherapy - scientific materialism - and for the discovery of spiritual meaning. Alchemy and Psychotherapy has four main sections: 'Alchemy and meaning' - looks at the history of alchemy, particularly the symbol of the coniunctio

- sacred marriage - a metaphor for the therapeutic relationship. 'The symbolic attitude' - explores working with dreams, fairytales, astrology and the body: each of which is a symbolic language. 'The spirit and the natural world' - discusses the concept of 'burn out' - of therapists, our ecological resources, the mystical aspects of quantum physics and the philosophical

underpinning of symbol formation. 'Clinical Applications' - shows alchemy's use with victims of abuse, those struggling to secure gender identity, in anorexia and in 'social healing' - atonement and restorative justice - which apply the idea of the coniunctio. Alchemy and Psychotherapy is illustrated throughout with clinical examples, alchemical pictures and poetry which emphasise that alchemy is both a creative art and a science. Bringing together contributors from a wide range of disciplines, Dale Mathers and contributors show that therapy is both art and science, that the consulting room is the alchemical laboratory, and that their research is their creative engagement. Alchemy and Psychotherapy will be a valuable resource for practitioners, students at all levels of psychotherapy, analytical psychology, psychoanalysis and creative, art-based therapies and for creative practitioners (in film, literature and performing arts) who draw on Jung's ideas. *The Roman Mysteries: The Beggar of Volubilis* Routledge From individual grains to desert dunes, from the bottom of the sea to the landscapes of Mars, and from billions of years in the

past to the future, this is the extraordinary story of one of nature's humblest, most powerful, and most ubiquitous materials. Told by a geologist with a novelist's sense of language and narrative, *Sand* examines the science—sand forensics, the physics of granular materials, sedimentology, paleontology and archaeology, planetary exploration—and at the

same time explores the rich human context of sand. Interwoven with tales of artists, mathematicians, explorers, and even a vampire, the story of sand is an epic of environmental construction and destruction, an adventure in staggering scales of time and distance, yet a tale that encompasses the ordinary and everyday. *Sand*, in fact, is all around us—it has made possible our computers,

buildings and windows, toothpaste, cosmetics, and paper, and it has played dramatic roles in human history, commerce, and imagination. In this luminous, kinetic, revelatory account, we do indeed find the world in a grain of sand. *Das hebräische Partizip in den Texten aus der jüdischen Wüste* Routledge First Published in 2009.  When a school teacher with a backbone of steel meets a hard-nosed lawman, more than the desert will heat up.
 Marielle Bloom never expected to be the victim of a stagecoach robbery stranded in the desert in the middle of summer with a sexy marshal who sets her body

on fire with one look from his steely eyes. Marshal Ramsey Whitfield doesn't know what to make of the outspoken teacher, but he does know she feels perfect in his arms. As they trek together across the barren landscape, searching for civilization, they discover that their desire for each other is hotter than the desert sand.

 A "fresh, genre-bending thriller" (Los Angeles Times) set in the near future when water is scarce and a spy, a hardened journalist and a young Texas migrant find themselves pawns in a corrupt game. "Think Chinatown meets Mad Max." NPR, All Things

Considered In the near future, the Colorado River has dwindled to a trickle. Detective, assassin, and spy, Angel Velasquez "cuts" water for the Southern Nevada Water Authority, ensuring that its lush arcology developments can bloom in Las Vegas. When rumors of a game-changing water source surface in Phoenix, Angel is sent south, hunting for answers that seem to evaporate as

the heat index soars and the landscape becomes more and more oppressive. There, he encounters Lucy Monroe, a hardened journalist with her own agenda, and Maria Villarosa, a young Texas migrant, who dreams of escaping north. As bodies begin to pile up, the three find themselves pawns in a game far bigger and more corrupt than they could have imagined, and

when water is more valuable than gold, alliances shift like sand, and the only truth in the desert is that someone will have to bleed if anyone hopes to drink.

A 2012 Sibert Honor Book In the sprawling African scrub desert of Etosha National Park in Namibia, they call her "the mother of all elephants." Holding binoculars closely to her

eyes, American scientist Caitlin O'Connell could not believe what she was seeing from these African elephants: as the mighty matriarch scanned the horizon, the other elephants followed suit, stopped midstride, and stood as still as statues. This observation would guide the scientist to a groundbreaking discovery about elephant communicatio

n: elephants actually listen with their limbs. The Elephant Scientist was named a 2012 Robert F. Sibert Honor Book. The Delphic Oracle prophesied that whoever owns the gem will rule Rome - so Titus is determined to

As they travel on a caravan across the desert they encounter slave-traders, pantomime actors and a wild animal stampede. The detectives must consider another quest: what has happened to Uncle Gaius? gilt den verschiedenen nationalen Western-Varianten in Osteuropa. Beiträge von Spezialisten aus Polen, Tschechien und Russland arbeiten bislang unbekannte Übereinstimmungen und Differenzen im Gebrauch des Genres in den damals kommunistischen Ländern zu Tage. Deutlich wird dabei u.a., dass das ideologisch als anrühlich betrachtete, aber beim Publikum sehr beliebte Genre vor allem in Russland und Polen über die Intervention der Regierungen dazu diente, sowohl Kapitalismuskritik als auch Überhöhungen der eigenen Nationalkultur zu inszenieren. Darüber hinaus beinhaltet der Band auch Texte mit neuen Perspektiven auf den deutschen Western sowie auf Western-Variationen im französischen, britischen, australischen, indischen und afrikanischen Kino. Auch die vielfältigen Verbindungen zwischen Western und Eastern werden u.a. anhand internationaler Koproduktionen beleuchtet. Der Band betont die Vielschichtigkeit und Komplexität der interkulturellen Transformationen des Western, die sich von Europa über Lateinamerika und Afrika bis nach Australien und Asien nachweisen lassen. Dabei wird

herausgearbeitet, wie Western-Elemente in sehr unterschiedlicher Weise zur Geltung kommen, um nationalspezifische Kulturmuster und Kommunikationszusammenhänge zu verhandeln.

In the Hebrew Bible, war is a prominent topic which is dealt with in both legal and narrative texts. So far, the interplay between the

two areas has received only little attention. This volume explores the impact of biblical war legislation on war accounts in the Hebrew Bible and in Early Jewish Literature. It provides case studies which show the importance of the topic and shed new light on redaction- and reception-historical developments. *Exploring Deserts* HarperCollins Australia Nietzsche says "good Europeans" must not only cultivate a

"supra-national" view, but also "supra-European" perspective to transcend their European biases and see beyond the horizon of Western culture. The volume takes up such conceptual frontier crossings and syntheses. Emphasizing Nietzsche's genealogy of European culture and his reflections upon the constitution of Europe in the broadest sense, its essays examine

peoples and nations, values and arts, knowledge and religion. Nietzsche's apprehensions about the crises of nihilism and decadence and their implications for Europe's (and humankind's) future are investigated in this context. Concerning the crossing of notional frontiers, contributors examine Nietzsche's hoped-for dismantling of Europe's state borders, the overcoming of

national prejudices and rivalries, and the propagation of a revitalizing "supra-European" perspective on the continent, its culture(s) and future. They also illuminate lines of syntheses, notably the syncretism of the ancient Greeks and its possible example for the European culture to-be. Finally certain of Europe's current problems are considered via the critical apparatus furnished by

Nietzsche's philosophy and the diagnostic tools it provides.

No other issue in our times of globalization has aroused such passionate debate as the increasingly complex transborder movements of people of all ethnicities, with the self-perceived "from-heres" often struggling to maintain the illusion of separateness from intruding

“come-heres.” The paradigm of transculturalit y offers prospects to rethink, demystify and represent cultural unity and difference, assimilation and alterity, in a manner that acknowledges the fissures and the fictions in traditional cultural dichotomies such as the melodramatic ally instrumentaliz ed “national” vs. “foreign.” The interdisciplinary essays compiled in

Transculturalit y and Perceptions of the Immigrant Other focus on the ways in which new diasporic and migrational patterns arouse ill will and conflict, but also negotiation and transcultural impulses, resulting in transformed meso-structures in media, schooling, and business. Investigating regional immigrant groups in the states of Virginia and North Rhine-Westphalia as

well as the discourses and images in public media, films, literature, and cultural events, the studies both document the contest for geographical, work, and community space and place it in larger theoretical and specific historical contexts. Arising from an international project undertaken by senior and junior scholars from the fields of cultural studies, history, and

sociology at Norfolk State University in Virginia and University of Siegen in Germany, these essays suggest that cultural citizenship can embody dynamic expressions of belonging and strategies of empowerment which shape political and economic communities, engendering in the process innovative forms of constantly negotiated, hybrid identity and transmigrator y affiliation. *Exploring*
