On December 6, 1969, the Texas Longhorns and Arkansas Razorbacks met in what many consider the Game of the Century. In the centennial season of college football, both teams were undefeated; both featured devastating and innovative offenses; both boasted cerebral, stingy defenses; and both were coached by superior tacticians and stirring motivators, Texas's Darrell Royal and Arkansas's Frank Broyles. On that day in Fayetteville, the poll-leading Horns and second-ranked Hogs battled for the Southwest Conference title -- and President Nixon was coming to present his own national championship plaque to the winners. Even if it had been just a game, it would still have been memorable today. The bitter rivals played a game for the ages before a frenzied, hog-callin' crowd that included not only an enthralled President Nixon -- a noted football fan -- but also Texas congressman George Bush. And the game turned, improbably, on an outrageously daring fourth-down pass. But it wasn't just a game, because nothing was so simple in December 1969. In Horns, Hogs, & Nixon Coming, Terry Frei deftly weaves the social, political, and athletic trends together for an unforgettable look at one of the landmark college sporting events of all time. The week leading up to the showdown saw black student groups at Arkansas, still marginalized and targets of virulent abuse, protesting and seeking to end the use of the song "Dixie" to celebrate Razorback touchdowns; students were determined to rush the field during the game if the band struck up the tune. As the United States remained mired in the Vietnam War, sign-wielding demonstrators (including war veterans) took up their positions outside the stadium -- in full view of the president. That same week, Rhodes Scholar Bill Clinton penned a letter to the head of the ROTC program at the University of Arkansas, thanking the colonel for shielding him from induction into the military earlier in the year. Finally, this game was the last major sporting event that featured two exclusively white teams. Slowly, inevitably, integration would come to the end zones and hash marks of the South, and though no one knew it at the time, the Texas vs. Arkansas clash truly was Dixie's Last Stand. Drawing from comprehensive research and interviews with coaches, players, protesters, professors, and politicians, Frei stitches together an intimate, electric narrative about two great teams -- including one player who, it would become clear only later, was displaying monumental courage just to make it onto the field -- facing off in the waning days of the era they defined. Gripping, nimble, and clear-eyed, Horns, Hogs, & Nixon Coming is the final word on the last of how it was.

An inspiring portrait of the extraordinary high-school football team whose quest for perfection sustains its hometown in the heartland The football team in Smith Center, Kansas, has won sixty-seven games in a row, the nation's longest high-school winning streak. They have done so by embracing a philosophy of life taught by their legendary coach, Roger Barta: "Respect each other, then learn to love each other and together we are champions." But as they embarked on a quest for a fifth consecutive title in the fall of 2008, they faced a potentially destabilizing transition: the greatest senior class in school history had graduated, and Barta was contemplating retirement after three decades on the sidelines. In Smith Center--population: 1,931--this changing of the guard was seismic. Hours removed from the nearest city, the town revolves around "our boys" in a way that goes to the heart of what America's heartland is today. Joe Drape, a Kansas City native and an award-winning sportswriter for The New York Times, moved his family to Smith Center to discover what makes the team and the town an inspiration even to those who live hundreds of miles away. His stories of the coaches, players, and parents reveal a community fighting to hold on to a way of life that is rich in value, even as its economic fortunes decline. Drape's moving portrait of Coach Barta and the impressive young men of Smith Center is sure to take its place among the more memorable American sports stories of recent years.

The bestselling inspirational book in which the author reunites with a childhood football hero, now a minister and coach, and witnesses a revelatory demonstration of the true meaning of manhood—Season of Life is a book that “should be required reading for every high school student in America and every parent as well” (Carl Lewis, Olympic champion). Joe Ehrmann, a former NFL football star and volunteer coach for the Gilman high school football team, teaches his players the keys to successful defense: penetrate, pursue, punish, love. Love? A former captain of the Baltimore Colts and now an ordained minister, Ehrmann is serious about the game of football but even more serious about the purpose of life. Season of Life is his inspirational story as told by Pulitzer Prize-winning journalist Jeffrey Marx, who was a ballboy for the Colts when he first met Ehrmann. Ehrmann now devotes his life to teaching young men a whole new meaning of masculinity. He teaches the boys at Gilman the precepts of his Building Men for Others program: Being a man means emphasizing relationships and having a cause bigger than yourself. It means accepting responsibility and leading courageously. It means that empathy, integrity, and living a life of service to others are more important than points on a scoreboard. Decades after he first met Ehrmann, Jeffrey Marx renewed their friendship and watched his childhood hero putting his principles into action. While chronicling a season with the Gilman Greyhounds, Marx witnessed the most extraordinary sports program he'd ever seen, where players say “I love you” to each other and coaches profess their love for their players. Off the field Marx sat with Ehrmann and absorbed life lessons that led him to reexamine his own unresolved relationship with his father. Season of Life is a book about what it means to be a man of substance and impact. It is a moving story that will

resonate with athletes, coaches, parents—anyone struggling to make the right choices in life.

Now in paperback with a new afterword, the New York Times bestseller by college football's most colorful, endearing, and successful pioneer, Steve Spurrier, in which he shares his story of a life in football--from growing up in Tennessee to winning the Heisman Trophy to playing and coaching in the pros to leading the Florida Gators to six SEC Championships and a National Championship to elevating the South Carolina program to new heights--and coaching like nobody else. He's been

called brash, cocky, arrogant, pompous, egotistical, and hilarious, but mostly he's known as the Head Ball Coach, a self-ordained term introduced to the lexicon of football by none other than the man himself, Steve Spurrier. He is the only coach who can claim to be the winningest coach at two different SEC schools and the only person who has won both the Heisman Trophy as a player and a National Championship as a coach. Or who has won a Heisman and coached a Heisman winner. From the beginning, Spurrier didn't want to sound like other coaches, dress like other coaches, and, especially, coach like other coaches. As a controversial football pioneer, he ushered in a different style of leadership and play. Spurrier's press conferences were glorious--he refused to lapse into coachspeak and was always entertaining, although he took his football very seriously. He was known for his fierce competitiveness, roaming up and down the sidelines, often throwing his signature visor to the ground in disgust. In his memoir, Spurrier talks for the first time about the circumstances under which he unexpectedly became a coach and why he resigned at South Carolina. He explains his unique style, the difference between winners and losers, his relationship with the media, why he follows the wisdom of ancient philosophers and warriors, his affinity for everything taught by John Wooden, and the reasons behind his relaxed regimen for living well. Spurrier, as always, speaks candidly, bringing together his thoughts about his words, actions, and achievements, while telling countless wonderful anecdotes.

The Junction Boy is now a television movie produced by ESPN, starring Tom Berenger as Bryant. The legendary Paul "Bear" Bryant is recognized nationwide as one of the greatest coaches ever. So why did he always cite his 1-9 A&M team of 1954 as his favorite? This is the story of a remarkable team - and the beginning of the legend. The Junction Boys tells the story of Coach Paul "Bear" Bryant's legendary training camp in the small town of Junction, Texas. In a move that many consider the salvation of the Texas A&M football program, Coach Bryant put 115 players through the most grueling practices ever imagined. Only a handful of players survived the entire 10 days, but they braved the intense heat of the Texas sun and the burning passion of their coach, and turned a floundering team into one of the nation's best. The Junction Boys is more than just a story of tough practices without water breaks. An extraordinary fellowship was forged from the mind-numbing pain. The thirty-five survivors bonded together like no other team in America. They profited from the Junction experience; the knowledge they took back with them to College Station, about themselves and what they were capable of, would be used for the rest of their lives. In vivid and powerful images reminiscent of Friday Night Lights, Hoosiers, and The Last Picture Show, these young men

and their driven coach come to life. *The Junction Boys* contains all the hallmarks of a classic sports story, and it combines America's love of college football with an extraordinary story of perseverance and triumph.

* AN INSTANT NEW YORK TIMES BESTSELLER * From the New York Times bestselling author of *The Vanishing American Adult*, an intimate and urgent assessment of the existential crisis facing our nation. Something is wrong. We all know it. American life expectancy is declining for a third straight year. Birth rates are dropping. Nearly half of us think the other political party isn't just wrong; they're evil. We're the richest country in history, but we've never been more pessimistic. What's causing the despair? In *Them*, bestselling author and U.S. senator Ben Sasse argues that, contrary to conventional wisdom, our crisis isn't really about politics. It's that we're so lonely we can't see straight—and it bubbles out as anger. Local communities are collapsing. Across the nation, little leagues are disappearing, Rotary clubs are dwindling, and in all likelihood, we don't know the neighbor two doors down. Work isn't what we'd hoped: less certainty, few lifelong coworkers, shallow purpose. Stable families and enduring friendships—life's fundamental pillars—are in statistical freefall. As traditional tribes of place evaporate, we rally against common enemies so we can feel part of a team. No institutions command widespread public trust, enabling foreign intelligence agencies to use technology to pick the scabs on our toxic divisions. We're in danger of half of us believing different facts than the other half, and the digital revolution throws gas on the fire. There's a path forward—but reversing our decline requires something radical: a rediscovery of real places and human-to-human relationships. Even as technology nudges us to become rootless, Sasse shows how only a recovery of rootedness can heal our lonely souls. America wants you to be happy, but more urgently, America needs you to love your neighbor and connect with your community. Fixing what's wrong with the country depends on it.

Our Boys Simon and Schuster

A Kirkus Reviews Best Nonfiction of 2011 title Jim Dent, the award-winning, New York Times bestselling author of *The Junction Boys*, returns with a powerful Texas story which transcends college football, displaying the courage and determination of one of the game's most valiant players. Freddie Steinmark was an under-sized but scrappy young man when he arrived in Austin as a freshman at the University of Texas in 1967. Despite the pronouncement by many coaches that he was too small to play football at the college level, Freddie was a tenacious competitor who vowed to start every game as a varsity Longhorn. By the start of the 1969 season, Freddie was making his mark on the college gridiron and national stage as UT's star safety, but he'd also developed a crippling pain in his thigh that worried his high school sweetheart, Linda. Despite the increasingly debilitating pain, Freddie continued to play throughout the season, helping the Longhorns to rip through opponents like pulpwood. His final game was for the national championship at the end of 1969, when the Longhorns rallied to beat Arkansas in a legendary game that has become known as "the Game of the Century." Tragically, bone cancer took Freddie off the field when nothing else could. But nothing could extinguish his irrepressible spirit or keep him away from the game. Although his struggle with cancer would be short-lived, Freddie's fight would inspire the nation as well as thousands of cancer victims, earning him a special citation from President Richard Nixon.

Today, a photo of Freddie hangs in the tunnel at Darrell K. Royal-Texas Memorial Stadium, where players touch it before games en route to the field. With this moving story, a Brian's Song for college football, Jim Dent once again brings readers to cheers and tears with a truly American tale of resolution and bravery in the face of the worst odds.

Damaged: The Heartbreaking True Story of a Forgotten Child University of Texas Press Documents the barrier-breaking 1964 effort of coach Bobby Layne, quarterback Bill Bradley and receiver Jerry Le Vias to recruit talented black players and build Texas's first integrated all-star high-school football team, tracing their considerable achievements and their triumphant Hershey park victory. At last, here's the book Longhorn fans have hoped for: the ultimate die-hard fan's guide to one of the greatest college football programs ever. *The Die-Hard Fan's Guide to Longhorn Football* takes you back to the very beginning of University of Texas football in 1893 when, according to reporters at the time, Texas "wiped up the face of the Earth" with its first opponents. But the guide doesn't stop there. It works its way down the field of 115 years of Longhorn football legends, including complete coverage of Mack Brown's dominating teams, Darrell Royal's thoughts on his greatest players, Emory Bellard's account of how he developed the famed Wishbone offense, and exclusive interviews with Earl Campbell, Steve Worster, and many other Longhorn stars who recall their days playing in burnt orange.

Head Ball Coach New York Review of Books

By early 1977, the metropolis was in the grip of hysteria caused by a murderer dubbed "Son of Sam." And on a sweltering night in July, a citywide power outage touched off an orgy of looting and arson that led to the largest mass arrest in New York's history. As the turbulent year wore on, the city became absorbed in two epic battles: the fight between Yankee slugger Reggie Jackson and team manager Billy Martin, and the battle between Ed Koch and Mario Cuomo for the city's mayoralty. Buried beneath these parallel conflicts, one for the soul of baseball, the other for the soul of the city, was the subtext of race. The brash and confident Jackson took every black myth and threw it back in white America's face. Meanwhile, Koch and Cuomo ran bitterly negative campaigns that played upon urbanites' fears of soaring crime and falling municipal budgets. These braided stories tell the history of a year that saw the opening of Studio 54, the evolution of punk rock, and the dawning of modern SoHo. As the pragmatist Koch defeated the visionary Cuomo and as Reggie Jackson finally rescued a team racked with dissension, 1977 became a year of survival but also of hope. -- Publishers description.
