NEW YORK TIMES BESTSELLER Acclaimed sports journalist Jack McCallum delivers the untold story of the greatest team ever assembled: the 1992 U.S. Olympic Men's Basketball Team. As a writer for Sports Illustrated, McCallum enjoyed a courtside seat for the most exciting basketball spectacle on earth, covering the Dream Team from its inception to the gold medal ceremony in Barcelona. Drawing on fresh interviews with the players, McCallum provides the definitive account of the Dream Team phenomenon. He offers a behind-the-scenes look at the controversial selection process. He takes us inside the team's Olympic suites for late-night card games and bull sessions where superstars like Michael Jordan, Magic Johnson, and Larry Bird debated the finer points of basketball. And he narrates a riveting account of the legendary intrasquad scrimmage that pitted the Dream Teamers against one another in what may have been the greatest pickup game in history. In the twenty years since the

Dream Team first captivated the world, its mystique has only grown. Dream Team vividly re-creates the moment when a once-in-a-millennium group of athletes came together and changed the future of sports—one perfectly executed fast break at a time. With a new Afterword by the author “The absolute definitive work on the subject, a perfectly wonderful once-you-pick-it-up-you-won’t-be-able-to-put-it-down book.”—The Boston Globe “An Olympic hoops dream.”—Newsday “What makes this volume a must-read for nostalgic hoopsters are the robust portraits of the outsize personalities of the participants, all of whom were remarkably open with McCallum, both then and now.”—Booklist (starred review)

The mighty interstellar hero Astro Mouse and his bright first mate Light Bulb took a wrong turn on their way to the Moon (to see if it was made of cheese), getting lost in space. They go to infinity and beyond trying to find their way home with the help of their adopted, sentient caca. When they land on a planet populated by powdered sugar, the space crew thinks they might just have found their new home. But a quartet of notorious no-goods vacationing there, Skunk Girl, Captain Fastidious, Arkade, and Meduso, calling themselves the Troublesome 4, might just prove problematic for the rodent and appliance super space duo.

The Demon-Haunted World Open Road Media

10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich

for a lifetime.

Major New York Times bestseller Winner of the National Academy of Sciences Best Book Award in 2012 Selected by the New York Times Book Review as one of the ten best books of 2011 A Globe and Mail Best Books of the Year 2011 Title One of The Economist's 2011 Books of the Year One of The Wall Street Journal's Best Nonfiction Books of the Year 2011 2013 Presidential Medal of Freedom Recipient Kahneman's work with Amos Tversky is the subject of Michael Lewis's The Undoing Project: A Friendship That Changed Our Minds In his mega bestseller, Thinking, Fast and Slow, Daniel Kahneman, the renowned psychologist and winner of the Nobel Prize in Economics, takes us on a groundbreaking tour of the mind and explains the two systems that drive the way we think. System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. The impact of overconfidence on corporate strategies, the difficulties of predicting what will make us happy in the future, the profound effect of cognitive biases on everything from playing the stock market to planning our next vacation—each of these can be understood only by knowing how the two systems shape our judgments and decisions. Engaging the reader in a lively conversation about how we think, Kahneman reveals where we can and cannot trust our intuitions and how we can tap into the benefits of slow thinking. He offers practical and enlightening insights into how choices are made in both our business and our personal lives—and how we can use different techniques to guard against the mental glitches that often get us into trouble. Winner of the National Academy of Sciences Best Book Award and the Los Angeles Times Book Prize and selected by The New York Times Book Review as one of the ten best books of 2011, Thinking, Fast and Slow is destined to be a classic.

precious stones and gold and multicolored silks, an oriental wealth of fantastic and supernatural action. And yet they strike an exotic note distinct in itself. The seventy-three stories here presented after original sources, embracing "Nursery Fairy Tales," "Legends of the Gods," "Tales of Saints and Magicians," "Nature and Animal Tales," "Ghost Stories," "Historic Fairy Tales," and "Literary Fairy Tales," probably represent the most comprehensive and varied collection of oriental fairy tales ever made available for American readers. There is no child who will not enjoy their novel color, their fantastic beauty, their infinite variety of subject.... It is the writer's hope that others may take as much pleasure in reading them as he did in their translation.

Drawing on the latest research in behavioral economics and a profound grasp of human psychology, *Work Rules!* also provides teaching examples from a range of industries-including lauded companies that happen to be hideous places to work and little-known companies that achieve spectacular results by valuing and listening to their employees. Love & Gelato Birlinn Ltd

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to. 2. Permission—People follow because they want to. 3. Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.
