STEPHANY KALEB

J. R. R. Tolkien: A Biography Springer Nature

Explores the spiritual meaning of Tolkien's epic fantasy and examines the characters as archetypes in the journey of life.

A Companion to J. R. R. Tolkien Crescent Moon Pub

A philologist and medieval scholar, J. R. R. Tolkien never intended to write immensely popular literature that would challenge traditional ideas about the nature of great literature and that was worthy of study in colleges across the world. He set out only to write a good story, the kind of story he and his friends would enjoy reading. In *The Hobbit* and in *The Lord of the Rings*, Tolkien created an entire world informed by his vast knowledge of mythology, languages, and medieval literature. In the 1960s, his books unexpectedly gained cult status with a new generation of young, countercultural readers. Today, the readership for Tolkien's absorbing secondary world--filled with monsters, magic, adventure, sacrifice, and heroism--continues to grow. Part 1 of this volume, "Materials," introduces instructors to the rich array of resources available for teaching Tolkien, including editions and criticism of his fiction and scholarship, historical material on his life and times, audiovisual materials, and film adaptations of his fiction. The essays in part 2, "Approaches," help instructors introduce students to critical debates around Tolkien's work, its sources, its influence, and

its connection to ecology, religion, and science. Contributors draw on interdisciplinary approaches to outline strategies for teaching Tolkien in a wide variety of classroom contexts.

Trouthe Is the Highest Thing Cambridge Scholars Publishing

The work of J.R.R. Tolkien has had a profound effect on contemporary fiction and filmmaking. Often disparaged by critics, Tolkien's fiction created a market for the "fantasy trilogy" and his academic work represents an innovative contribution to the field of philology. In the 20th century, his fiction bridged the gap between "learned" and "popular" readerships. Today the fantasy genre continues to grow--even as publishers cut back on creative fiction--moving energetically into film, gaming and online fan fiction. This book describes how Tolkien's imaginative landscape continues to entertain and inspire, drawing new generations to Middle-earth.

The Encyclopedia of Twentieth-Century Fiction, 3 Volume Set Wildside Press LLC

When *The Lord of the Rings* was published in the 1950's it did not sit comfortably among any preconceived notions of literary genre. The critical responses reflected the confusion: for some, it was an unwelcome reappearance of narrative standards that modernism was supposed to have done away with, or just a bad novel. Others considered it a refreshing work in the epic and romance traditions. Ironically, much of the critical prejudice regarding the question of genre in *The Lord of the Rings* has been motivated by the same kind of blindness that Tolkien denounced in his famous 1936 lecture *Beowulf: the monsters and the critics*. Like *Beowulf*, Tolkien's work has also failed to be properly appreciated and assessed due to a

general refusal to accept the centrality of monsters, because despite its 'monstrous' originality and fantastic setting, it is very clearly, and not only chronologically, at the centre of twentieth-century literature. The Lord of the Rings and the Western Narrative Tradition is an attempt to account for the particular genre interaction that governs Tolkien's tale and put it in a meaningful relationship with the contemporary literary context. At the same time, it is a quest to track down one of the most famous and elusive literary monsters of the past century by filling out a long-neglected white space on the map of comparative literature and genre criticism.

C.S. Lewis and His Circle McFarland

This book takes a fresh look at Tolkien's literary artistry from the points of view of both linguistics and literary history, with the aim of shedding light on the literary techniques used in *The Lord of the Rings*. The authors study Tolkien's use of words, style, narrative techniques, rhetoric and symbolism to highlight his status as literary artist. Dirk Siepmann uses a corpus stylistic approach to analyse Tolkien's vocabulary and syntax, while Thomas Kullmann uses discourse theory, literary history and concepts of intertextuality to explore Tolkien's literary techniques, relating them to the history of English fiction and poetry. Issues discussed include point of view, speeches, story-telling, landscape descriptions, the poems inserted into the body of the narrative, and the role of language in the characterization of the novel's protagonists. This book will be of particular interest to students and scholars of literature, corpus linguistics and stylistics, as well as Tolkien fans and specialists.

Meditations on Middle-Earth HarperCollins UK

The book contains over 1100 words and is intended to be a quick reference guide for the reader of *The Hobbit* & *The Lord of the Rings*, where old, uncommon and archaic words can be quickly looked up and their meaning made clear. Draught for example occurs 35 times in the text with at least 5 different meanings. It means current of air in one sentence, drinking, or a drink or potion in another, one who is drafted into service in another, to draw or to pull in another and finally the depth a vessel sinks in the water. One needs to know all of the meanings in order to fully understand the text. The words in the first section of each book are arranged in order of appearance in the books. In the last section, the words are arranged alphabetically for ease of finding a particular word without regard to where it is used. Also included is the sentence where the word is used to provide the reader with the contextual setting of the word in the sentence it is used in as an aid to understand the meaning.

Guide to Middle Earth Macmillan

The Lord of the Rings is intended to be applicable to the real world of relationships, religion, pleasure, pain, and politics. Tolkien himself said that his grand tale of wizards, orcs, hobbits, and elves was aimed at truth and good morals in the actual world. Analysis of the popular appeal of *The Lord of the Rings* (on websites and elsewhere) shows that Tolkien fans are hungry for discussion of the urgent moral and cosmological issues arising out of this fantastic epic story. Can political power be wielded for good, or must it always corrupt? Does technology destroy the truly human? Is it morally wrong to give up hope? Can we find meaning in chance events? In *The Lord of the Rings and Philosophy*, seventeen young philosophy professors, all of them ardent Tolkien fans and most of them contributors to the four earlier volumes in the *Popular Culture and Philosophy* series, address some of these important issues and show how clues to their solutions may be found in the imaginary world of Middle-earth. The book is divided into five sections, concerned with Power and the Ring, the Quest for Happiness, Good and Evil in Middle-earth, Time and Mortality, and the Relevance *A Quest of Her Own* Dirk Vander Ploeg

The Old French Lancelot-Graal is an important but massive work, providing a place for King Arthur not only in the history of Britain but also in Christian history. This new translation of one section, the Quest of the Holy Grail, will be a flexible addition to courses on medieval literature or romance. The notes and guides are designed to help readers enjoy the text while appreciating its relationship to social and literary history. Appendices include translations of material from two of Chrétien de Troyes's romances (Perceval and Yvain); translations from other parts of the Lancelot-Grail Cycle (the early history of the Grail and the conception of Galahad); and excerpts from apocryphal works (from French versions written at about the same time as the Quest).

Tolkien's Intellectual Landscape Walter de Gruyter GmbH & Co KG

In the Franklin's Tale, Geoffrey Chaucer tells us that "trouthe is the highest thing that man can keep." But what is this "trouthe"? It's not exactly truth, or troth; it is a virtue more complex than either. This book looks at Chaucer's use of the word, and argues that it is a virtue, and an emotion, now largely forgotten -- but still felt by some people (notably autistics), and probably by Chaucer himself. In a small way, it tries to bring back this lost virtue.

Tolkien's Heroic Quest HarperCollins UK

This Encyclopedia offers an indispensable reference guide to twentieth-century fiction in the English-language. With nearly 500 contributors and over one million words, it is the most comprehensive and authoritative reference guide to twentieth-century fiction in the English language. Contains over 500 entries of 1000-3000 words written in lucid, jargon-free prose, by an international cast of leading scholars Arranged in three volumes covering British and Irish Fiction, American Fiction, and World Fiction, with each volume edited by a leading scholar in the field Entries cover major writers (such as Saul Bellow, Raymond Chandler, John Steinbeck, Virginia Woolf, A.S. Byatt, Samuel Beckett, D.H. Lawrence, Zadie Smith, Salman Rushdie, V.S. Naipaul, Nadine Gordimer, Alice Munro, Chinua Achebe, J.M. Coetzee, and Ngũgĩ Wa Thiong'o) and their key works Examines the genres and sub-genres of fiction in English across the twentieth century (including crime fiction, Sci-Fi, chick lit, the noir novel, and the avant-garde novel) as well as the major movements, debates, and rubrics within the field, such as censorship, globalization, modernist fiction, fiction and the film industry, and the fiction of migration, diaspora, and exile
Picturing Tolkien White Lion Publishing

Ever since the first edition of Ligotti's "Songs of a Dead Dreamer" appeared in 1985, it was clear that here was an author of extraordinary brilliance. Now here is a book about him, a symposium of explorations and examinations of the Ligottian universe by leading critics.

Tolkien as a Literary Artist Modern Language Association

Tolkien's Lost Chaucer uncovers the story of an unpublished and previously unknown book by the author of *The Lord of the Rings*. Tolkien worked between 1922 and 1928 on his Clarendon edition *Selections from Chaucer's Poetry and Prose*, and though never completed, its 160 pages of commentary reveals much of his thinking about language and storytelling when he was still at the threshold of his career as an epoch-making writer of fantasy literature. Drawing upon other new materials such as his edition of the Reeve's Tale and his Oxford lectures on the Pardoner's Tale, this book reveals Chaucer as a major influence upon Tolkien's literary imagination.

The Fellowship of the Ring The History Press

This absorbing insight into the mind behind Middle-earth will introduce or remind readers of the abundance that exists in Tolkien's thought and imagination. Interweaving sections explore *The Lord of the Rings* and its history; the key themes, concepts and images in Tolkein's work; the people and places in his life, and his other writings. At the heart of the book is an indispensable A-Z of middle-earth, with detailed entries on Beings, Places, Things and Events.

The Concise Oxford Companion to English Literature Robert B. Waltz

In the Quest for Middle-earth he suggests that *The Lord of the Rings* may be more than an imaginary tale set thousands of years in the past in a place called Middle-earth! What if J.R.R. Tolkien weaved his fictional characters into a tapestry created from the secret knowledge of earth's ancient history?" Is there historical and archaeological evidence that supports this position and was any of this knowledge known to Tolkien? Recent discoveries in Iraq (ancient Sumer, Babylon), Greece and Finland confirm the possibility that intelligent creatures once lived and worked alongside man. There are clues that point to the fact, that as a race, we were the labor force required to serve superior beings - Gods - to create their vision of heaven on earth. Discover the truth about the Sang Real (Royal Blood), Rennes-la-Chateau and the Templar Knights!

Tolkien in the Twenty-First Century St. Martin's Press

This interdisciplinary volume collects original essays in literary criticism and literary theory, philology, codicology, metrics, and art history. Composed by prominent scholars in Anglo-Saxon studies, these essays honor the depth and breadth of Patrick W. Conner's influence in our discipline. As a scholar, teacher, editor, administrator and innovator, Pat has contributed to Anglo-Saxon studies for four decades. It is hard to say which of his legacies is most profound.

Counsel and Strategy in Middle English Romance Columbia University Press

Based on the bestselling *Oxford Companion to English Literature*, this is an indispensable, compact guide to all aspects of English literature. Over 5,500 new and revised A to Z entries give unrivalled coverage of writers, works, historical context, literary theory, allusions, characters, and plot summaries. Discursive feature entries supply a wealth of information about important genres in literature. For this fourth edition, the dictionary has been fully revised and updated to include expanded coverage of postcolonial, African, black British, and children's literature, as well as improved representation in the areas of science fiction, biography, travel literature, women's writing, gay and lesbian writing, and American literature. The appendices listing literary prize winners, including the Nobel, Man Booker, and Pulitzer prizes, have all been updated and there is also a timeline, chronicling the development of English literature from c. 1000 to the present day. Many entries feature recommended web links, which are listed and regularly updated on a dedicated companion website. Written originally by a team of more than 140 distinguished authors and extensively updated for this new edition, this book provides an essential point of reference for English students, teachers, and all other readers of literature in English.

The Quest McFarland

'The Fellowship of the Ring' is the first part of JRR Tolkien's epic masterpiece 'The Lord of the Rings'. This 50th anniversary edition features special packaging and includes the definitive edition of the text. |PB

A Tolkien English Glossary McFarland

Tolkien got the main symbols in *The Hobbit* from Richard Wagner's Ring cycle, but he was testy and sensitive whenever Wagner's name was mentioned. The problem was Wagner's anti-Semitism. The English had a long history of philo-Semitism that did not mesh with Wagner's views, leading to an artistic conflict that Tolkien could not resolve, and ultimately to an incoherent book. In purging Wagner's symbols of their anti-Semitism, Tolkien purged them of their meaning as well, for the real issue in Wagner's *Das Rheingold* is capitalism, not anti-Semitism. And if Capitalism is the real issue, England must be the villain, which is unacceptable to Tolkien, an English patriot. Once rearranged to suit English sensibilities, though, those symbols lose their power, meaning, and coherence. After reading renowned cultural critic E. Michael Jones's intellectual tour de force, you'll never view Tolkien's saga the same.

Creation and Beauty in Tolkien's Catholic Vision Boydell & Brewer

This book invites readers into Tolkien's world through the lens of a variety of philosophers, all of whom owe a rich debt to the Neoplatonic philosophical tradition. It places Tolkien's mythology against a wider backdrop of Catholic philosophy and asks serious questions about the nature of creation, the nature of God, what it means to be good, and the problem of evil. Halsall sets Tolkien alongside both his contemporaries and ancient authors, revealing his careful use of literary devices inspired by them to craft his own "mythology for England."

The Thomas Ligotti Reader Walking Tree Pub

The original authorised biography, and the only one written by an author who actually met J.R.R. Tolkien.
